Exception Report	<p><b>MIJB-1.3</b></p> <p>Evaluate the impact of new approaches to In Reach (including identifying patients suitable for Reablement in Medicine of the Elderly wards) by 30th September 2022</p>	<p>There continues to be a significant and sustained focus on flow, maximizing opportunities for admission prevention and for facilitating earlier appropriate discharge wherever possible.</p> <p>Significant progress has been made in the embedding of the home first philosophy, defining roles and responsibilities, clarifying lines of escalation, understanding pathways, breaking down barriers and facilitating collaboration between teams.</p> <p>A snapshot of the first 6 weeks of April and May 2022 indicated that there was a 42% increase in demand on</p>						

		our teams in comparison to the previous year, at a time when we were challenged with reduced staffing, care home closures and ward closures. This led to a surge of delayed discharges across the system, peaking in early June. It is important to recognise that this surge in delayed discharges is not isolated to Midlothian – this is a national challenge.
	<b>MIJB-1.6</b> Evaluate the impact of the enhanced 'Discharge to Assess' Service to determine the case for continued investment by 30th September 2022	From our 2021 data we can see that average Barthel scores are higher on discharge from D2A than they were on admission to D2A.
	<b>MIJB-1.14</b> Ensure the MIJB remains sighted on action and progress in relation to those aspects of the Unscheduled Care Board workstreams relevant to Midlothian as well as locally determined work such as Midlothian Community Hospital, Home First Services, Primary Care and Potentially Preventable Admissions (PPAs). A quarterly report should be provided by the Head of Primary Care and Older People's Services	
	<b>MIJB-1.15</b> NHS Lothian should continue to provide monthly financial reporting of the set aside areas. Additionally, Acute Services should provide quarterly financial information on the set-aside budget that should now also include intelligence and narrative to detail the nature of financial variance and support the IJBs understanding of areas of mutual concern	

## Midlothian IJB Direction No.2 Accident and Emergency (A&E)

Exception Report	<b>MIJB-2.3</b> Agree Midlothian response to national redesign of urgent care programme to improve access to urgent care pathways so people receive the right care, in the right place, at the right time by 30th September 2022	Redesign of urgent care has been identified as one of the 3 high impact improvements for NHS Lothian. This will be a professional-to-professional pathway focused on NHS Lothian flow hub to schedule care with an aim to reduce overall ED attendance across NHS Lothian by 10% March 2023. Midlothian cannot agree a response to this until we know what the pathway is – but we are actively involved in design of pathway.						
	<b>MIJB-2.6</b> Continue to reshape pathways to ensure people access community-based services wherever viable.	This Direction is captured in MJB-1.6 and MIJB-1.13. It is recommended that the Board consider closing this Direction.						
	<b>MIJB-2.11</b> Take an active role in pan-Lothian decisions around A&E front-door redesign (Midlothian IJB set-aside budget)	The Service requests that this direction is reconsidered or removed						

	and ensure engagement of acute services staff in Midlothian Acute Services Planning Groups	
	<b>MIJB-2.13</b> Evaluate and continue to monitor the impact of the Single Point of Access on ensuring people access community-based services and reducing demand on A and E and unscheduled admissions.	A formal evaluation of the SPOA has been delayed due to service pressures

Exception Report	<b>MIJB-3.4</b> Review progress in the development of Glenlee Ward at Midlothian Community Hospital as a step-up from community and day treatment facility by 30 September 2022	It is recommended that to change the ward identified in this Direction due to ward configuration changes <i>“Review progress in the development of Loanesk Ward at Midlothian Community Hospital as a step-up from community and day treatment facility by 30 September 2022”</i> Progress has been limited by the challenges introduced by covid. The team are now looking at models across the country to establish a sustainable model for the future. Step up is currently offered on a case-by-case basis in discussion with clinical and medical teams are required.						
	<b>MIJB-3.6</b> The option appraisal regarding the most appropriate	Progress has been limited by the challenges introduced by covid and further negotiation with acute						

	outpatient clinics and day treatment to be provided in Midlothian Community Hospital should be completed by 30 September 2022. This should include an examination of the viability of chemotherapy; and consideration of the potential role of remote technology in providing consultations with specialist medical and nursing staff	colleagues to progress this Directions. Outpatient services has operated a centralised model to support the recovery agenda, and this has not yet included discussion to improve opportunities to provide the right care in the right place at the right time that includes MCH.
	<b>MIJB-3.7</b> Improve accessible information about the services provided through MCH by September 2022	Better information provision across the partnership is an area for improvement and noted as an area of focus for 2023-24. This will be dependent on the identification of resource to support design, production, publications, web support and communications.
	<b>MIJB-3.9</b> Improve recruitment processes through stronger advertising, the provision of ongoing training and the development of increased specialist opportunities by January 2023	<p>The Generic Recruitment continues to cause concern around effectiveness, and this is being raised via Chief Nurse. Ops Business manager is also working on improving information on the Partnership to be included in recruitment adverts.</p> <p>This is a known risk across all Health &amp; Social Care Partnership who are experiencing similar recruitment challenges impacting on targeted recruitment.</p> <p>Specific action taken in Midlothian:</p> <ul style="list-style-type: none"> <li>• Input from Organisational Development</li> <li>• Recruitment for local people currently in receipt of benefits</li> </ul> <p>New promotional materials developed for use at recruitment events</p>

Date from which Direction takes effect	01 July 2022	
Direction to	NHS Lothian <input type="checkbox"/> Midlothian Council <input type="checkbox"/> Both <input type="checkbox"/>	
Overall Direction Status		
Exception Report	<b>MIJB-5.8</b> Progress Capital Development programme in Primary Care developing plans for new health centres in Shawfair and in South Bonnyrigg addressing the current demand on healthcare facilities and predicted population growth in both these areas. (PCIP priority)	
	<b>MIJB-5.9</b> Review admissions to hospital from care homes at nights and weekends to identify opportunities for earlier intervention and care closer to home	It is recommended that the Board consider closing this Direction as this action sits within the operational work plan of the Potentially Preventable Admissions working group
	<b>MIJB-5.11</b> Develop a joint digital plan for the optimisation of new technologies across primary care	Work is planned to understand the current landscape and test some assumptions to determine the most effective digital plan
	<b>MIJB-5.13</b> Primary Care services should consider and plan for the additional health and care services required in relation to	It is recommended that this Direction is included in the work required to complete 5.8

	additional housing developments to ensure that the special needs of the Midlothian population are being taken into account fully.	
	<b>MIJB-5.15</b> Improve quality and options for people with frailty in primary care by 30th September 2022 through proactive in-reach to Edinburgh Royal Infirmary when someone with frailty is admitted and virtual medical teams involving the frailty GPs and key hospital consultants	Due to operational pressures, this work was paused for 3 months. A move to letter contact was initiated in June 2022, due to the time-consuming nature of telephone contact Quality and options for people with frailty have been improved and in-reach is delivered by the flow hub and taking a multidisciplinary approach It is recommended that the Board review this Direction along with others to consolidate and redefine all Directions relating to Frailty for 2023-24
	<b>MIJB-5.16</b> Evaluate the feasibility of improving continuity of care by General Practice and community services

Exception Report	<b>MIJB-6.4</b> Work to ensure our frailty services are accessible to people under 65 years by December 2021	It is recommended that the Board review this Direction along with others to consolidate and redefine all Directions relating to Frailty for 2023-24. Please also see MIJB-8.1								
	<b>MIJB-6.9</b> Implement a falls prevention programme with cross sector support that includes targeted training and increased options for physical activity	This Directions is dependent on the success of MIJB-6.8 This Direction asks for a Falls Prevention Programme to be established. This work is currently progressing via a Falls Pathway. It is recommended to review this direction again the progress delivered by the falls pathway and consider whether the Direction requires review.								

	<b>MIJB-6.12</b> Develop an improvement programme to identify people who are frail, provide holistic assessment and strengthen coordination of care	It is recommended that the Board review this Direction along with others to consolidate and redefine all Directions relating to Frailty for 2023-24
	<b>MIJB-6.14</b> Develop a dedicated system for data analysis / reporting of falls data to identify clear priorities and inform future direction of falls work by 30th September 2022	The challenges around IG across health, social care and third sector data that sits on the NHS Lothian server is limiting the ability to progress this work. The capabilities to create a dashboard exist but the IG is not in place
	<b>MIJB-6.15</b> Work with Primary Care providers to develop a standard identification process, signposting / self-referral system for all patients at risk of falls linked into the integrated Falls Pathway by 30th September 2022	It is recommended that the Board review this Direction along with others to related to falls and consider this Direction closed due to duplication (see MIJB-6.8). primary care will be included in a system wide Falls Pathway.
	<b>MIJB-6.17</b> Review podiatry provision in Midlothian, in particular for people with Type 2 Diabetes by January 2023	This Direction relates to a hosted service within West Lothian. Midlothian disaggregated data for hosted services is not currently reported. Work is ongoing within the CO group to establish effective and consistent reporting mechanisms for hosted services.
	<b>MIJB-6.18</b> Undertake a detailed review to establish the extent and nature of pressures on District Nursing and present proposals for transformation	The service will remain under continual review and report back to the HSPC

## Midlothian IJB Direction No.7 Dental, Ophthalmology & Audiology

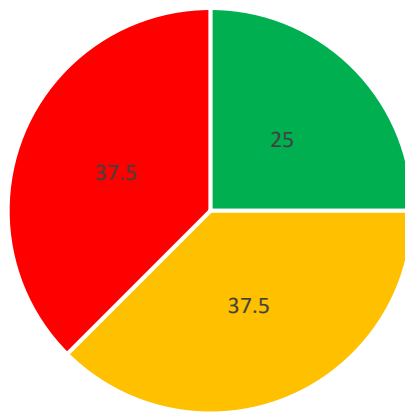

(ISSUED UNDER SECTIONS 26-28 OF THE PUBLIC BODIES (JOINT WORKING) (SCOTLAND) ACT 2014)

Exception Report	<b>MIJB-7.2</b> Use data from NHS Lothian Public Health to determine the impact of NHS general dental services on the oral and general health of Midlothian population and use this information to identify further actions if required by 30th September 2022	The response to the pandemic has resulted in significant restrictions in access to the GDS in the time period. IPC measures have now reverted to near “normal” and dentists are working to respond to the backlog of care as a result of nearly 18-months of restrictions. Some practices are withdrawing from NHS dental care altogether but to date none in Midlothian have taken this step						
	<b>MIJB-7.5</b> The role of Optometry services in pathways of care for patients in a range of services such as general medical practice, ophthalmology, diabetes and A&E, providing both ongoing and urgent care for patients closer to home to be clarified by 30th September 2022	No data available as pathway has not gone live; hopeful that it will be in place later this year.						
	<b>MIJB-7.6</b> Evaluate the impact of community glaucoma specialist	No data available as pathway has not gone live; hopeful that it will be in place later this year.						

	optometrists by 30th September 2022	
	<b>MIJB-7.7</b> Quarterly meetings should be established between the Partnership and these three hosted services. They should agree local plans and monitor progress	Initial links with Dental, Optometry & Community Pharmacy colleagues made, with view to setting up meetings schedule in due course.
	<b>MIJB-7.8</b> Work with Audiology Services to determine the feasibility of establishing an audiology clinic(s) in Midlothian	Contact made with Head of Audiology services to progress planning

Exception Report	<p><b>MIJB-8.1</b></p> <p>The e-Frailty Programme should be progressed to improve coordination of care and to provide support at an earlier stage. This includes the use of learning from the e-frailty programme to develop a frailty informed workforce by 30th September 2022 (see also MIJB-5 Directions relating to Frailty)</p>	<p>This Direction was written at a time when the ambition was to create a Frailty Programme. Due to the changes in service configuration since March 2020 this has not been progressed. As such, the recommendation is to review</p> <ol style="list-style-type: none"><li>1. The wording of this Direction to reflect the frailty pathway work underway <i>Develop and evaluate an e-Frailty Pathway that proactively identifies people who may be at risk of poorer outcomes and effectively signpost to preventative service offers and supports</i></li><li>2. Review, consolidate and redefine all</li></ol>									

		Directions relating to Frailty for 2023-24
	<b>MIJB-8.11</b> Review and design a new model of day service provision	Directions MIJB-8.3 and MIJB-8.11 are similar.  It is recommended that Directions MIJB-8.3 is closed and a MIJB-8.11 is reworded to reflect ongoing ambitions and extended to January 2023 Suggested wording for MIJB-8.11 “Undertake a review of day support and design a new model of day service provision including alternatives to building based support by September 2023”
	<b>MIJB-8.13</b> Continue to evaluate impact of developments to Midlothian Intermediate Care Services. This would incorporate a detailed plan to design a reshaped model of care in preparation for the provision of new purpose-built accommodation in 2024	Building delays due to Covid & supply chain issues have had a consequential impact on work to inform the design of appropriate models of care

Exception Report	<b>MIJB-18.1</b> Review the effectiveness of the new combined Public Protection module, covering Child Protection, Violence Against Women and Girls and Adult Support and Protection by 30th September 2022	This Direction has been complete and should be closed. There is a quarterly Public Protection half day training course that is offered to staff working in Midlothian HSCP. This is at ‘level one’ (awareness and response) and is open to staff who have not completed any PP training or are new in post, and who work across all services in East Lothian and Midlothian. The East Lothian and Midlothian Public Protection Committee Learning and Development Sub-group reviews the evaluation report of each training course. This course is consistently evaluated positively. Evaluation is not broken down by area or organisation.								
	<b>MIJB-18.9</b>	Implementation of the Safe Leave Programme is								

	Evaluate Midlothian Council Safe Leave Programme - for those employees who are experiencing gender-based violence and need additional time off work to deal with resulting matters by 30th September 2022	complete. Midlothian is working towards Silver Accreditation but this has been limited by HR capacity to progress Support from Midlothian Council Quality Improvement Team is required to progress this evaluation. The Midlothian Council Gender Based Violence Policy (which includes the Safe leave) will be reviewed later in 2022 as part of the work towards achieving Silver Accreditation for Equally Safe at Work
	<b>MIJB-18.10</b> Review and streamline the Adult Support and Protection referrals process by December 2022	This Direction pre-dates 2020 and work is now required to understand the current situation to understand the most effective action to see change
	<b>MIJB-18.12</b> Embed the <i>Equally Safe</i> priorities to prevent/tackle violence women and girls	This requires an Equally Safe strategy for Midlothian, the development of which has been approved in principle. The timescale for commencing development of this is November 2022.
	<b>MIJB-18.14</b> Improve staff skills in managing cases which do not meet the ASP criteria	Consideration is being given to convening a group to develop a procedure to review those who are not meeting criteria but are likely vulnerable
	<b>MIJB-18.15</b> Improve knowledge and skills of Council Officers in their work in ASP	This Direction links to the workforce needs assessment and links to MIJB-18.1
	<b>MIJB-18.16</b> Improve risk management in care homes in Adult Support and Protection practice	The Adult Support and Protection Lead Officer has developed a report on learning from large scale investigations and is engaging on a multi-agency basis to draw out the key themes and learning to develop an action plan.

Exception Report	<b>MIJB-19.7</b> Initiate discussions with the 3 other Integrated Joint Boards about the potential disaggregation of Public Health funding including but not limited to Health Improvement Fund, Hep C and Blood Borne Virus by 30th September 2022.		This is a historic Direction, predating the pandemic. It has not therefore been discussed with the current Public Health Directorate management. It is not clear what the question was that disaggregation might be the answer to. Chief Officer has suggested that CFOs may want to take this forward, and it is requested that Board reconsider this Direction								
	<b>MIJB-19.12</b> Increase trauma-informed practice across Health and Social Care and Community Planning			Implementation of this Direction is hampered by the lack of local trainers. We are awaiting NHS Lothian train the trainer training to be rolled out.
