

Community Asset Transfer Request: Bonnyrigg After School Club

Report by Kevin Anderson, Acting Director, Resources

1 Purpose of Report

The purpose of this report is to ask Council to consider and agree the Community Asset Transfer (CAT) application from Bonnyrigg After School Club (BASC) for the former Polton Bowling Club, Eskdale Drive, Bonnyrigg for use as an Early Years Provision and Community Centre.

2 Background

This report replaces the report considered by the Committee at their meeting on 30 April and includes new information and clarifications supplied by the applicant in response to the assessment presented to the Committee on that date.

2.1 Community Empowerment Act (Scotland) 2015.

In deciding whether to agree to or refuse a CAT request, the Council must consider the following:-

- (a) the reasons for the request;
- (b) any other information provided in support of the request;
- (c) whether agreeing to the request would be likely to promote or improve:-
 - economic development
 - regeneration
 - public health
 - social wellbeing
 - environmental wellbeing, or
 - whether agreeing to the request would be likely to reduce socio-economic inequalities
- (d) any other benefits that might arise if the request were agreed to;
- (e) how the request relates to the authority's duties under Equalities Legislation; and
- (f) any obligations that may prevent, restrict or otherwise affect the authority's ability to agree to the request.

In reaching its decision, the Council must compare the benefits of the community transfer body's proposals with the benefits that might arise from any alternative proposal. Alternative proposals may be another asset transfer request; another proposal made by the Council; continuing the existing use or disposal on the open market.

As well as assessing the benefits which the proposed CAT may deliver the Council must also assess whether the community transfer body is able to successfully deliver the project, and make it sustainable.

Importantly, the Act requires the Council to agree a CAT request unless there are reasonable grounds for refusing it.

3 Report Implications

3.1 Resource

A key part of the Council's financial strategy is the rationalisation of land and buildings. Council policy is to consider Asset Transfer for halls and pavilions that meet approved criteria. A transfer will reduce future financial burdens to the Council associated with these facilities. The "services with communities" business transformation work stream has a target of £1 million budget savings and community asset transfers are expected to contribute to this target being met. In October 2017 the closure of Polton Bowling Club was included as part of the cuts to address the financial challenge to 2021/22 with a recommendation to hand the site over to a community group for bowling or other suitable alternate use. The closure is expected to have saved £20,000 per annum ground maintenance costs, and an average of £3,877 per year maintenance and energy costs

3.2 Bonnyrigg After School Club

The application is being made by Bonnyrigg After School Club (BASC), registered charity SC029617. The organisation is run by a Senior Management Team and Board of Directors. BASC have been operating for nearly 25 years and now operate 6 projects across the wider Bonnyrigg area, serving 300 children per week. The wrap around nursery currently operating from Poltonhall Recreation Pavilion was

inspected by the Care Inspectorate in April 2018 and received 'Good' ratings in each of the four areas of inspection.

3.3 Bonnyrigg After School Club request

BASC have requested ownership of Polton Bowling Green Pavilion including all the land inside the fenced area, at nil value. See map in **appendix 1**.

The application was received on 14 September 2018 and after the due diligence checks there was a request for further information. After the additional information was provided the formal acknowledgement date was set, 6 December 2018. The Council has 6 months from the acknowledgement date to make a decision, i.e. 6 June 2019. A report was considered by the Committee at their meeting on 30 April. The meeting was adjourned for further information due to additional submissions being made by BASC. Elected members also required clarification of the status of the site as it has also been identified within the Strategic Housing Investment Plan (SHIP).

An extension to 6 month period referred to above was agreed with BASC until 30 June. See application from BASC in **appendix 2** and email from BASC **appendix 3**

The original application was published on the council's website and details were sent to elected members, Bonnyrigg and Lasswade Community Council and Poltonhall and District Community Council. The notice of CAT was displayed at the site, requesting comments by 1 February 2019. There was one recorded comment from Bonnyrigg and Lasswade Community Council (BLCC) and one from a local resident, – **see appendix 4**.

BLCC initially expressed "serious concerns about the suitability of the premises in this application. Main concerns are the distinct lack of suitable parking and the inevitable increase in traffic in an already congested part of Bonnyrigg. There are safety issues which the

Community Council does not believe have been fully considered. We are also concerned about the proposal to use the car park at the Roman Catholic Church”.

A further statement of 13 May 2019 from BLCC states

“I am writing as Chairman of Bonnyrigg & Lasswade Community Council to follow up the comments made by ourselves regarding the proposed Asset Transfer of Poltonhall Bowling Club to the Bonnyrigg After School Club. We have been informed by them that the Roman Catholic Church next door will allow the use of their Car Park by the car drivers dropping off and collecting children and additionally, that the BASC will have a staff member monitoring the parking at peak periods. Clearly this has given us some reassurance that provision has been made for parking. It is likely this provision will be adequate in the early stages when the capacity of the present building is limited. However we understand there are likely to be plans in future for further buildings on the site. Should the extra capacity provided by these plans be considerable it is unlikely the parking would be sufficient for all the drop-offs and pick-ups. This area close to Lasswade High School Centre has challenges for the management of peak period traffic at present and we would not wish to see future increases to capacity leading to a deteriorating child safety environment.

We have been asked to withdraw our objection to this asset transfer as the BASC has made provision for safe parking, and we are happy to do. However we do not have adequate information on the plans for the site to be confident that the parking provision and management will be sufficient in the longer term

A local resident lives adjacent to the bowling club and has concerns that users of the facility will park up on the pavement and potentially block access to the driveway. It is also worth noting that there have been a number of complaints relating to parking in the immediate area caused in part by the high school and retail unit’s demand.”

Since the 30 April CAT committee, BASC have reached an informal agreement with the Roman Catholic Church to allow use of the church car park some 60 metres away from Polton Bowling club (see correspondence - **appendix 5**), and has committed to ensuring staff will be present outside at key drop- off and pick up times to ensure parents make use of this facility.

Since the meeting on 30 April the Planning Service has advised that at the present time no formal planning application has been submitted. Informal advice has previously been provided that indicated that the proposed drop off and pick up of children associated with this proposed development is likely to add to peak time congestion and have a detrimental impact on pedestrian safety. It is considered unlikely that the highway impacts could be satisfactorily mitigated without alternative parking being secured, and unless that were the case it would be unlikely that a planning application would be supported by officers.

3.4 Initial Assessment

The Community Management Assessment Group (CMAG), comprising officers from Communities, Estates, Finance, Education, Legal and Land Resources undertook a formal assessment on 4 March 2019 in accordance with the Council approved Framework. This assessment recommended that the Council refuse the request for the reasons below:

1. The site was identified on the Strategic Housing Investment Plan (SHIP) 2019/20 – 2023/24 which was approved at Council on 13 November 2018. The SHIP planned to accommodate 18 units on the site.
2. In addition the BASC business case was not considered strong in a number of areas. The population figures used were out of date and statements on population growth were therefore inaccurate.
3. Although there was a reference to partnership working there was limited reference to local partners in the Bonnyrigg area.

4. The financial forecast contained some inaccuracies and no estimate of NI and pension costs for staff.
5. Although the application stated that the wrap around nursery will deliver early learning and childcare, BASC are not currently in partnership with the Council and are therefore not delivering funded early learning and childcare at this time. Should they become a funded provider (they have advised separately that this is their intention) then from August 2020 all funded ELC providers will be expected to pay front line staff delivering 1140 hours at least the real living wage. The real living wage is currently £9 per hour but this had not been taken account of in the financial forecast, or that that meals will need to be provided to the children.
6. A survey used in support of the bid was aimed at parents so did not incorporate a wider community view and some 'closed' questions were used in the survey design. Question 2 of the survey made reference to turning the pavilion into a community hub providing a range of community services but then listed "extended early years and childcare services such as nursery, breakfast club, after school club and holiday play schemes" and made no mention of other community groups.
7. The business plan did not appear to create any additional childcare capacity but suggests they will move the current provision for 16 children from Poltonhall Recreation Pavilion (currently leased from the Council to Bonnyrigg Rose Community Football Club) to the former Polton Bowling Club, where 16 children will be accommodated.
8. In an article in the Midlothian Advertiser on 10 April 2019 the applicant stated that the plan also includes a café, this is not mentioned in the application received by Midlothian Council which implied a further increase in traffic congestion and associated problems with parking.

The initial assessment scored the project 33 out of a possible 70 (47%).

Since the 30 April meeting ,at which a written submission and delegation was received from BASC, the CMAG has undertaken further communication with BASC and undertook a reassessment on 30 May, based on the information and clarifications received. The reassessment process scored the application at 43 out of a possible 70 point score (61%) and as a result the application is now recommended for approval.

See appendix 6

The issue of the allocation of the site to the SHIP raised at the meeting on 30 April has now been clarified with Housing Services. They have confirmed that sites shown in the SHIP are all indicative and subject to revision based on technical assessments which may result in sites being deleted or added in to the SHIP without the need for full Council approval. The normal process is for such revisions to be notified to Council as part of the regular updates to the social housing new build programme provided by Housing Services. There is no legal commitment of this specific site to the SHIP as it has not been transferred to the Housing Revenue Account or included in any capital financing agreement with Scottish Government. Housing have indicated that they are content to remove this site from the SHIP and can identify an alternative location for the proposed units in the Bonnyrigg area to meet the goals of the SHIP.

CMAG now recommend that the CAT be granted for the following reasons:

- It will save the Council £20,000 per year ground maintenance costs and £3,877 running costs
- the site is not required by the SHIP
- the application now presents an adequate business case
- Whilst the initial proposal was a move of an existing service and does not create additional capacity or employment, the plans to adapt and extend the building do offer the potential for both increased childcare capacity and additional employment, subject to planning consent being given.

- BASC have applied for delivery partner status with Midlothian Council for delivering Early Learning and Childcare, The objection of the Bonnyrigg and Lasswade Community Council has been withdrawn
- BASC have secured external funding to support conversion of the building and committed the majority of their reserves to add to this which if approved offers the potential to bring an unused property back into use and improve the social and economic wellbeing of working parents in the Bonnyrigg / Poltonhall area

3.5 Risk

There is a risk that failure to develop the pavilion leaving it empty makes it more likely to be subject to vandalism and other forms of anti-social behaviour. If the site, through neglect, remains unused it will detract from the amenity of the area and potentially generate complaints from local residents. The Council is also incurring continuing costs for maintaining the building in a safe condition. The Services with Communities transformation work stream has a target to achieve £1 million savings. Amongst the approaches this is taking, the transfer of assets to community management and resulting revenue savings to the Council has been identified as a means of working towards this target. Failure to approve transfers will reduce the likelihood of making progress towards this savings target.

There remains a risk that the CAT application is granted but planning permission for change of use and/or an extension to the building on the site is refused resulting in the site not being able to be utilised as an Early Years Provision and community space. To mitigate this risk it is recommended that the application be granted subject to a condition that the applicant obtains appropriate planning permission and building warrant consents within 12 months of the date of the Decision Notice of the CAT decision being issued. This also avoids the risk of BASC owning the site and developing it for other uses not provided for in their application.

Estates currently value the site as a dated pavilion with some land, at a market figure of £36,000.

It is recommended that the CAT be agreed for the nominal value of £1, (if asked), subject to the condition that the use of the property must be restricted in all time coming to the sole purpose of a an Early Years Provision and Community Centre. It is considered necessary in order protect the Council's interest to include in the disposition to be granted in favour of BASC an economic development burden (EDB) under section 45 of the Title Conditions (Scotland) Act 2003. It is generally accepted that the legislation allows a broad approach to the securing of economic benefit.

There is clear potential economic benefit to the Bonnyrigg area in facilitating the development of the site as an Early Years Provision and community space. It will secure a community facility to the area, helping to attract/retain a workforce, and promotes the social inclusion/cohesion in the community which is vital for the economic future of Midlothian. The plans to adapt and extend the pavilion has the potential for both increased childcare capacity and additional employment.

The CMAG also recommend that, as an added protection, an overage provision is inserted into the disposition in favour of BASC as:

- a. It will ensure that, even if at some point in the future, BASC manage to persuade the Lands Tribunal to vary/waive the use restriction, any future sale for an alternative more valuable use would enable the Council to be compensated; and
- b. The Council is fulfilling its obligation to obtain best value from the transfer of the asset at nominal value. The overage would provide that in the event of any sale for an alternative use, the Council would receive a 100% of the uplift in value, i.e. the difference in value between the land as an Early Years Provision and Community Centre and the value with the proposed change of use.

Lastly, it is also recommended that the EDB provide that BASC shall, in all time coming keep the property (a) in good and substantial condition and repair and will, as and when necessary, reinstate and rebuild the property, all in accordance with good building practice and all applicable legislation and regulations and (b) insured with a reputable insurance provider against all normal commercial risks to the sight and reasonable satisfaction of the Council.

3.6 Single Midlothian Plan and Business Transformation

Themes addressed in this report:

- Community safety
- Adult health, care and housing
- Getting it right for every Midlothian child
- Improving opportunities in Midlothian
- Sustainable growth
- Business transformation and Best Value
- None of the above

3.7 Key Priorities within the Single Midlothian Plan

The further information from BASC has clarified that whilst the asset transfer will not initially create additional early year's provision, the proposed redesign and extension of the premises in future years is intended to do so. BASC will provide a childcare service around the funded early learning and childcare hours, enabling parents and carers to purchase additional hours where required, the demand for which is demonstrated by the current uptake and waiting list for the service and the responses to a survey carried out by the council.

BASC are not currently in partnership with Midlothian Council's Early Years to deliver Early Learning and Childcare, but have applied to be part of this arrangement to contribute alongside other private and third sector early year's partners in achieving the requirement to offer 1140

hours of childcare to all parents of 3 and 4 year olds and eligible 2 year olds in Midlothian.

At the time of writing the Early Years team are considering an application for capital funding for a new private nursery provision in the south east of Bonnyrigg in recognition of the significant growth in the population on Bonnyrigg. It would be consistent with this to approve the BASC asset transfer.

3.8 Impact on Performance and Outcomes

This asset transfer will have a limited but positive impact on the performance and outcomes of the authority.

3.9 Adopting a Preventative Approach

This asset transfer will provide limited preventative programmes of activity.

3.10 Involving Communities and Other Stakeholders

The applicant consulted with parents through a short survey – **see appendix 5**. There was further consultation undertaken after the initial assessment at a recent place standard event in Bonnyrigg which indicated wider support.

The community council and elected members were notified of the application. Bonnyrigg and Lasswade Community Council has now indicated qualified support for this proposal. No communication has been received from Poltonhall & Hopfield Community Council. There was one recorded representation to the application which is included in the appendices of this report.

3.11 Ensuring Equalities

A full Integrated Impact Assessment has been considered for this asset transfer and concludes that it will have no negative impact on equalities – **see appendix 6**.

3.12 Supporting Sustainable Development

This asset transfer will have limited impact on sustainable development in Midlothian.

3.13 Digital Issues

There are no digital issues arising from this report.

4 Recommendations

It is recommended that the Committee agree to the CAT application submitted by BASC subject to:

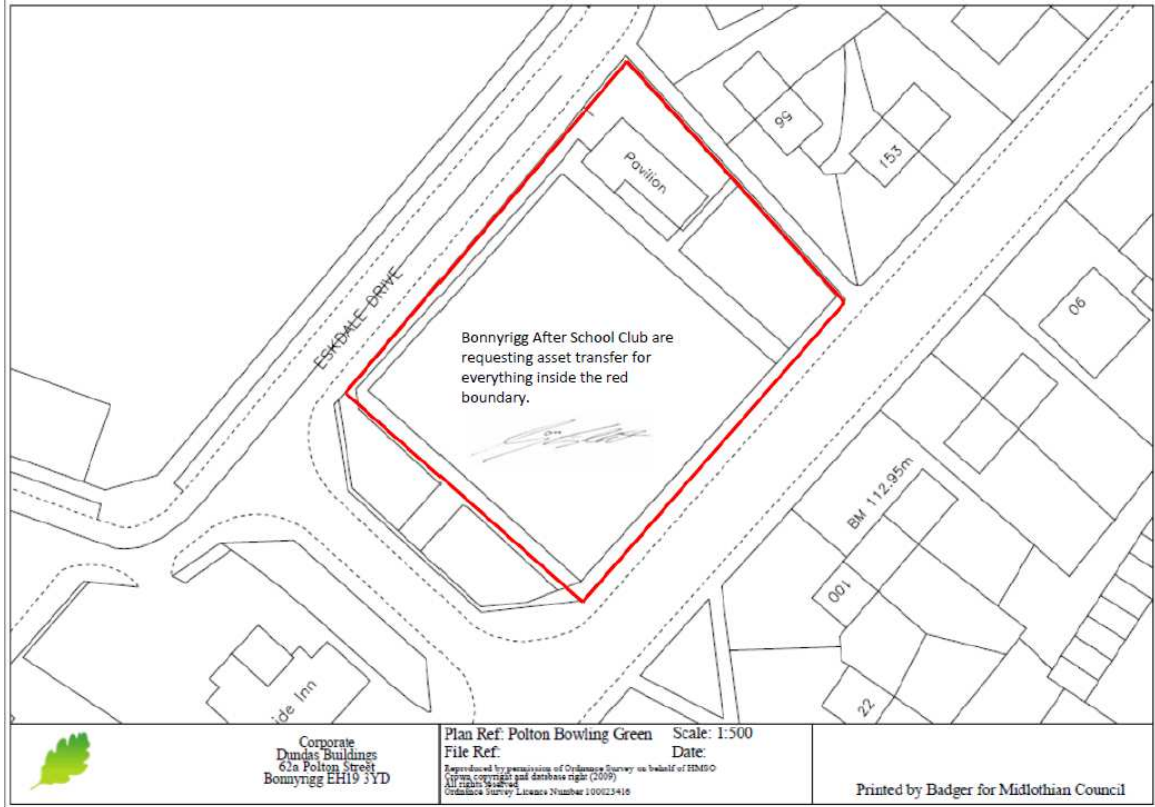

- (a) the conditions referred to in section 3.5 above; and
- (b) such other reasonable terms and conditions as the Acting Director, Resources may consider necessary in order to protect the interests of the Council.

Appendix 2 Application

COMMUNITY EMPOWERMENT (SCOTLAND) ACT 2015

ASSET TRANSFER REQUEST FORM

Important:

You do not need to use this form to make an asset transfer request, but it will help you to include all the required information. Before making an asset transfer request:

- Read the [asset transfer guidance](#) from the Scottish Government.
- Contact us to discuss your proposals.

Please email to:

communities.team@midlothian.gov.uk

Or mail to:

Communities Team

Fairfield House

Dalkeith

Midlothian

EH22 3AA

This is an asset transfer request made under Part 5 of the Community Empowerment (Scotland) Act 2015.

Section 1: Information about the community transfer body (CTB) making the request

1.1 Name of the CTB making the asset transfer request

Bonnyrigg After School Club

1.2 CTB address. This should be the registered address, if you have one.

Postal address:

Bonnyrigg Primary School
Sherwood Community Centre
Cockpen Road
Bonnyrigg
Postcode: EH19 3HR

1.3 Contact details. Please provide the name and contact address to which correspondence in relation to this asset transfer request should be sent.

Contact name: Sam Elliot

Postal address:

As above

Postcode:

Email: bonnyriggafterschoolclub@gmail.com

Telephone: 0131-663-7181

We agree that correspondence in relation to this asset transfer request may be sent by email to the email address given above. *(Please X to agree)*

You can ask the relevant authority to stop sending correspondence by email, or change the email address, by telling them at any time, as long as 5 working days' notice is given.

1.4 Please mark an "X" in the relevant box to confirm the type of CTB and its official number, if it has one.

X	Company and its company number is	249307
	Scottish Charitable Incorporated Organisation (SCIO), and its charity number is	
	Community Benefit Society (BenCom), and its registered number is	
	Unincorporated organisation (no number)	

Please attach a copy of the CTB’s constitution, articles of association or registered rules.

1.5 Has the organisation been individually designated as a community transfer body by the Scottish Ministers?

No

Yes

Please give the title and date of the designation order:

1.6 Does the organisation fall within a class of bodies which has been designated as community transfer bodies by the Scottish Ministers?

No

Yes

If yes what class of bodies does it fall within?

We are Company ltd by guarantee with charitable status with membership open to all users

Section 2: Information about the land and rights requested

2.1 Please identify the land to which this asset transfer request relates.

You should provide a street address or grid reference and any name by which the land or building is known. If you have identified the land on the relevant authority's register of land, please enter the details listed there.

It may be helpful to provide one or more maps or drawings to show the boundaries of the land requested. If you are requesting part of a piece of land, you must give a full description of the boundaries of the area to which your request relates. If you are requesting part of a building, please make clear what area you require. A drawing may be helpful.

Poltonhall Bowling Green Pavilion, including all the land inside the fenced area.

We have submitted a pre planning application for change of use from a Bowling Green pavilion to an early year's provision and community centre. (Attached)

2.2 Please provide the UPRN (Unique Property Reference Number), if known.

If the property has a UPRN you will find it in the relevant authority's register of land.

UPRN:

Section 3: Type of request, payment and conditions

3.1 Please tick what type of request is being made:

for ownership (under section 79(2)(a)) - go to section 3A

for lease (under section 79(2)(b)(i)) – go to section 3B

for other rights (section 79(2)(b)(ii)) - go to section 3C

3A – Request for ownership

What price are you prepared to pay for the land requested? :

Proposed price: £0.00

Please attach a note setting out any other terms and conditions you wish to apply to the request.

3B – request for lease

What is the length of lease you are requesting?

How much rent are you prepared to pay? Please make clear whether this is per year or per month.

Proposed rent: £ per

Please attach a note setting out any other terms and conditions you wish to be included in the lease, or to apply to the request in any other way.

3C – request for other rights

What are the rights you are requesting?

--

Do you propose to make any payment for these rights?

Yes

No

If yes, how much are you prepared to pay? Please make clear what period this would cover, for example per week, per month, per day?

Proposed payment: £ per

Please attach a note setting out any other terms and conditions you wish to apply to the request.

Section 4: Community Proposal

4.1 Please set out the reasons for making the request and how the land or building will be used.

This should explain the objectives of your project, why there is a need for it, any development or changes you plan to make to the land or building, and any activities that will take place there.

We are looking to take over Polton Bowling Green Pavilion so that we can continue to deliver Early Learning and Childcare. Taking over ownership would allow us to further expand our service so that we can meet the demand of childcare as well as supporting the expansion of Early Learning and Childcare 1140 hours. As well as taking over the building to deliver Early Learning and Childcare for August 2020, we also see the building used as a Community Centre so that other groups and organisations can utilise this for community space. In order for us to do this we would initially share the space with groups for the hope to expand the pavilion so that we can further offer community spaces.

Benefits of the proposal

4.2 Please set out the benefits that you consider will arise if the request is agreed to.

This section should explain how the project will benefit your community, and others. Please refer to the guidance on how the relevant authority will consider the benefits of a request.

The application meets the objectives of the following Midlothian Council policies:

We are keen to deliver in partnership our joint corporate ambition to on the, “2020 Vision for Early Years, Early Learning & Childcare Expansion Plan,” which explicitly commits Midlothian Council to declare an existing or surplus building to be considered for transfer to a community group with a view to delivering the Scottish Government’s policy desire to implement the 1140 hours childcare agenda.

The overarching analytically persuasive and robust thrust and recurring theme of the Planning Partnership’s documentation confirms that the exponential increase in population figures, particularly in Bonnyrigg will put enormous pressure on service delivery. Accordingly, new thinking is required and our reasonable and reasoned submission is that our application will help the Community Planning Partnership to achieve the noble vision of ensuring, Midlothian is a, “great place to grow”, and especially for our young children who are growing on a daily basis.

The, ‘Midlothian Moving Forward Community Planning for Midlothian Community Planning Research and Information,’ report (July, 2016) tellingly notes that, in regard to new house building, “the extent and impact of house building indicates that a greater. Percentage of the 3,141 built between 2001 and 2011 we’re larger homes and likely to attract families.” Clearly this is prima facie evidence that supports our application which seeks to bring a robust approach to meeting the obvious commensurate increase in demand for childcare services, not to mention the impact of

the 1140 GIRFECM policy;

Bonnyrigg, according to the nrscotland.gov web site and electoral statistics was, in 2011, Midlothian's biggest and fastest growing town which means Bonnyrigg will face a significant increase in the pending demand for community based early years and childcare services;

Our application supports the strategic priorities of the, "Single Midlothian Plan," which is Midlothian Council's overarching strategic plan framework. We believe BASC's involvement will have a positive impact on the performance and outcomes of the authority and assist the Council in its strategic objectives including commitments as detailed in the, "Bonnyrigg Neighbourhood Plan," and the Improving Opportunities for the People of Midlothian (IOM, 2018/2019).

In respect to the above policy directives the benefits we see are as follows:

1. We share the vision and priorities of the Scottish Government's, "Early Years Framework," and that of, the Early Years Taskforce." Our local vision will be achieved through interagency working with the broader Bonnyrigg community, MAP, and the Planning Partnership. One of the benefits of the asset transfer will be that of dynamic partnerships in action to develop capacity and support structures for early learning and childcare expansion to 1140 hours with focus on high quality provision. We see family, community, and child development benefits in our joint vision of seeking to increase service provision from 600 to 1140 hours so that children in their early years and their families are being provided with quality, community based, not for profit childcare, where young people are supported to be happy, healthy and reach their potential.
2. Another clear benefit of having a new building is that we will be in a solid, sustainable position to offer increased access to quality community based, not for profit, early year's provision. Our primary focus will be on the ethos of GIRFEC and bringing benefits to children, parents and families supporting them to be healthy, to take up family learning opportunities such as PEEPs, The Big Bedtime Read. Here parents will be encouraged to share the benefits of loving and learning together;
3. Another family learning benefit our team will strive to purposefully deliver on will be to increase the amount of time parents report spending reading with their children, visiting the library, and singing together and engaging in arts and crafts activities. Developing positive parenting skills will be a positive benefit;
4. In developing our early intervention strategies and practice we will, in a new dedicated building be in a robust position to develop our early years support structures and expand Bonnyrigg's capacity to offer more families access to 1140 hours of quality, community based, not for profit childcare. Community based, not for profit service delivery would be a major benefit as the community will be helping themselves to have a say in the services they want locally;
5. The increase of early year's provision from 600 to 1140 hours per year for 3 and 4 year olds as per the Children & Young People Scotland Act is something we are prepared for if we can secure the Poltonhall Pavilion. Our aim would be to bringing the benefit of early intervention practice to ensure The children of the Bonnyrigg

community are given the help and support that is appropriate for them to become healthier, more resilient and closing the learning gap;

6. Another benefit would be that through an emphasis on family learning and lifelong learning we will be helping parents to seek employment, or education possibilities, or move up the skills pipeline with a consequential benefit of poverty reduction, here official statistics tell us that Child poverty levels in Midlothian is above the Scottish average at 22.5%. Our dedicated, community based, not for profit service will free up parents to pursue other life goals thus bringing a benefit of enhanced life chances which may see families moving out of relative poverty as disposable income rises. We can offer parents childcare appropriate to their needs and at the times they need it;

7. Yet another benefit would be through our early intervention approach we could contribute to tackling the growing concern with ACES, adverse childhood experiences. Here, evidence suggests that with positive intervention in the very early years that children can grow up without being dependent on costly social services, imprisonment, and healthier so saving the state lots of money in years to come;

8. Another benefit is that our staffs have the qualifications for their posts, or they are working towards the appropriate qualifications. Moreover, all our staff are registered with the SSSC and meet the dictates of the regulatory fitness to practice body.

A.IMPROVEMENT IN CHILCARE SERVICES

More community based childcare is available enabling parents to work or move up the skills pipeline, or advance into education so boosting the family economy and spend more in the local shops;

Extending the 1140 hours service to local people that previously did not have access to quality, not for profit, community based access:

Improved child protection services on offer decreasing the likelihood of ACES and then having a future impact on Lessing the state financial burden on the police, the NHS, ambulances, violence, prison, social workers;

B. IMPACT ON LOCAL EMPLOYMENT/LABOUR MARKET OPPORTUNITIES

Local parents can gain access to skilled employment or qualifications at times that suit them and also because our community based provision is on offer, lessen travel to work distances;

Increase of staff locally to run childcare services;

Parents can start work or own businesses without childcare concerns;

C. ENVIRONMENTAL IMPROVEMENT

Parents do not have to travel too far to say Edinburgh to source quality, community based, not for profit, childcare;

We will bring to life a building that reflects community vision, belief, responsibility;

D. COMMUNITY IMPROVEMENT

De facto we will introduce a locally owned and maintained service asset that will reflect community strength, vision, ambition, belief and pride;

We will set a talismanic exemplar of partnership and community based example for others to follow in terms of anticipated community success, good practice and exceptional childcare services

Restrictions on use of the land

4.3 If there are any restrictions on the use or development of the land, please explain how your project will comply with these.

Restrictions might include, amongst others, environmental designations such as a Site of Special Scientific Interest (SSI), heritage designations such as listed building status, controls on contaminated land or planning restrictions.

No restrictions

Negative consequences

4.4 What negative consequences (if any) may occur if your request is agreed to? How would you propose to minimise these?

You should consider any potential negative consequences for the local economy, environment, or any group of people, and explain how you could reduce these.

Potential noise from children in the garden area

Parking however pick up and drop off points would be the lay by at the Lasswade Centre. Further discussions with the Roman Catholic Church opposite the Lasswade Centre for usage of their car park.

Capacity to deliver

4.5 Please show how your organisation will be able to manage the project and achieve your objectives.

This could include the skills and experience of members of the organisation, any track record of previous projects, whether you intend to use professional advisers, etc.

Bonnyrigg After School Club has been operating for nearly 25 years. The organisation first started with just five children, catering for the 'latch door key children'. Since then our organisation has grown. We now operate six projects for over the Bonnyrigg, Poltonhall and Lasswade catchment. We deliver services to all five schools and nurseries in Bonnyrigg, serving 300 children per week.

Part of the expansion throughout the years is by having a strong Senior Management Team and a focused Board of Directors. Our organisation is headed up by Anne Elliot. Anne brings a wealth of experience and knowledge to our service and to the community. She has led the organisation for the past twenty five years and has developed and expanded the service to meet the demand of childcare. Anne is assisted by her two Service Managers, Sam Elliot and Sarah Thomson. Both Managers have developed both Out of School Care and Early Learning & Childcare in the Bonnyrigg Area. Our Senior Management Team is qualified at degree level with a focus on developing services and management and leadership. The team have experience on developing strategic development plans as well as working with their staff teams on developing operational plans.

Anne and Sam are both Directors on Bonnyrigg & Sherwood Community Development Trust. B&SCDT is a local charity in Bonnyrigg who help support groups and organisations. The trust has set up projects to help support and develop the community of Bonnyrigg. More recently the Trust, with Anne and Sam's direction has taken the charity shop in Bonnyrigg. This is a big project for the Trust as this is only run by volunteers.

The aim of the project is to give back to the community through a grant scheme. The money raised from the project has to go back to the community through supporting groups and organisations.

Our partnership work with organisations consists of Midlothian After School Club Network which is made up of Managers from ASC's in Midlothian. This networking helps our Senior Management Team by gaining knowledge from other services on how they are further developing their services. We also work closely with Play Midlothian and Midlothian Voluntary Action. Both these services help by supporting and given advice on developing projects and services.

Section 5: Level and nature of support

5.1 Please provide details of the level and nature of support for the request, from your community and, if relevant, from others.

This could include information on the proportion of your community who are involved with the request, how you have engaged with your community beyond the members of your organisation and what their response has been. You should also show how you have engaged with any other communities that may be affected by your proposals.

Please find attached support letters

We have consulted with groups and organisations in the area on their potential interests with the pavilion. We have also consulted with 100 people within the community with a quick survey asking the following questions;

1. Do you think there is a need and benefit more affordable Out of School Care and Wrap Around Nursery Care?

All agreed that there was a definite need with comments such as;

“Yes, Bonnyrigg is expanding so we will need more childcare”

“It is vital that there is an affordable Out of School Wrap Around Care. If this was not in place, I would not be able to afford to work the hours I do.”

“Very much so, provided it is affordable”

“Absolutely, without the service I would be unable to work full time”

“I would think that most parents are looking for childcare to be as affordable as possible without compromising quality.”

“The area is growing and this provision has to be in place.”

“Absolutely, as an NHS employee our salary is being stretched further, having affordable childcare allows us to invest our money into children’s activities within the community; this helps us to grow it.”

“There are more homes being built in the area therefore more children so these spaces will be needed.”

“Definitely, our community is getting bigger and there is a lack of facilities for the working family.”

“This is an essential service for low income parents/single parents as many would be unable to work without it, so the whole community would benefit from it.”

2. Would you support our bid to take over Poltonhall Bowling Green Pavilion to turn it into a community hub providing a range of community services including extended early years and childcare services such as nursery, breakfast club, after school club and holiday playschemes?

All agreed and said it was a good idea with comments such as;

“As long as the service was still available at Burnbrae.”

“A community hub would be a good addition to Bonnyrigg.”

“As long as it doesn’t affect the schemes currently in place.”

“Yes, definitely something we need.”

“Yes, defiantly if you could find the staff to run it to no detriment of the other existing facilities.”

“Yes, nursery wrap around allowed it to be affordable to attend school nursery with the peers she goes to school with and for me to continue in full time work.”

“Bonnyrigg is crying out for more safe environments for kids to develop further.”

“Yes, I would be supporting with fundraising where available.”

“I’ll support the bid.”

“Yes, as it is a more central area for people to pick up children and it would be a good use for the space.”

“Yes fully support to have these facilities in the one place not relying on other places used by groups.”

3. Any other comments?

“Childcare in the Bonnyrigg area is needed more than ever with all the new houses being built.”

“Great location with great potential, re outdoor space.”

“The after school club is an amazing establishment without it I would be unable to work full time, any sport required I am happy to help.”

“I feel the breakfast club and after school club are lifesavers for my family.”

“If children are not into sport, dancing etc there is nothing for them to do. Some parents can't afford to send them to some activities as their budget does not go far enough.”

“Out of School childcare is a great help for the working families, in and around Bonnyrigg.”

“Without this type of provision, many families and future families would not be able to be active members of the community therefore futures would be quite bleak.”

4. Do you think there is a need for community space in Bonnyrigg? Yes or No

Most replied yes but two said they were unsure and some of their comments are listed below;

“Yes not enough at the moment”

“Yes there seems to be more places closing than opening”

“There is a need for more community space that would allow ages up to 18 to have an area to socialise and enjoy activities with their friends”

“Yes the community is growing an incredible rate. If we do not have secure space to have a community there will not be one. We will lose services and activities to Edinburgh etc “

“Yes with growing population and no resource in community to support this”

“Not enough as it is at the moment”

“There seems to be more places closing than opening.”

“Yes there are very few elderly community links.”

“Yes there is always a need for better community spaces.”

“Yes but I don’t think people will support them.”

“Play park for older aged group.”

5. What would you use more community spaces for?

“Fitness classes, playgroups, art activities.”

“All aspects of community activities from children through to the elderly.”

“I currently help with local youth group and space is already at a premium.”

“Youth clubs, parent groups, breakfast clubs, after school clubs.”

“Nurseries, after school clubs.”

“Recreation”

“I wouldn’t use them.”

“Activities for children and families to come together.”

“I am not sure I would actually use it.”

“Affordable extracurricular activities.”

“Kids clubs, OAP meeting place, dance groups.”

“Exercising and social events.”

“Classes for the community as many are full to capacity so this is a further benefit.”

“Dance lessons, karate etc.”

“More organised activities for local children.”

“Different community services”

“Affordable activities”

“Space for children to play.”

“More park areas for younger children”

“Youth clubs for younger children.”

“Support groups for mothers and babies.”

“Soft play”

“Family provision and activity based themed workshops.”

“Craft workshops.”

“Reading and learning workshops.”

“Youth clubs.”

6. Any other comments

“Keep up the good work.”

“Keep the communications up”

“A youth club would be good in Bonnyrigg”

“For activities low income families can use so children can benefit from this.”

“After school clubs and breakfast clubs are a great support for all the working families in the community.”

“Without After School Clubs we would struggle to continue to work.”

Section 6: Funding

6.1 Please outline how you propose to fund the price or rent you are prepared to pay for the land, and your proposed use of the land.

You should show your calculations of the costs associated with the transfer of the land or building and your future use of it, including any redevelopment, ongoing maintenance and the costs of your activities. All proposed income and investment should be identified, including volunteering and donations. If you intend to apply for grants or loans you should demonstrate that your proposals are eligible for the relevant scheme, according to the guidance available for applicants.

Please see attached the financial forecast.

Maintenance and Repairs

We are a non-profit making organisation and all funds accrued go back in our general reserves fund. We currently have £30,000 in reserves and this fund would support any repairs or maintenance for the provision.

BASC has a sustainable business model operating four Out of School Care (OSC) services and an Early Years Nursery Service. Midlothian Council currently receives £12,000 for rental for OSC accommodation. Our Early Years Provision currently pays £5,000 to Bonnyrigg Rose Football Club for rental accommodation. The £5,000 would be a saving however we would use this money as reserves which would then support repairs and maintenance. We would generate revenue from new community groups and their let charges would reflect a cost that is similar to charges by Midlothian Council so that repairs and maintenance would be factored into this cost.

Funding/Grants

As this is an Early Years Provision we would apply to Midlothian Council's Early Years Expansion Capital Fund which will help our project and support the expansion of the 1140 hrs provision.

We are currently at the second stage of The People's Lottery Award for £50,000. This would allow us to generate the necessary funds to refurbish the hall. If we are unsuccessful with this grant we would apply to Bonnyrigg & Sherwood Community Development Trust through their grant awards for funding towards the emergency repairs e.g. the flooring. All other improvements to the building would be paid through our reserves that our organisation holds for such project.

Signature

Two office-bearers (board members, charity trustees or committee members) of the community transfer body must sign the form. They must provide their full names and home addresses for the purposes of prevention and detection of fraud.

This form and supporting documents will be made available online for any interested person to read and comment on. Personal information will be redacted before the form is made available.

We, the undersigned on behalf of the community transfer body as noted at section 1, make an asset transfer request as specified in this form.

We declare that the information provided in this form and any accompanying documents is accurate to the best of our knowledge.

Appendix 3 – confirmation of extension of decision making timing:

Sam Elliot <bonnyrigggafterschoolclub@gmail.com>

Hi Alasdair,

As per our discussion and the agreement from the Community Assessment Transfer Committee meeting I am happy for to extend the decision making date from 6th June to a date some time before 25th June (Full Council). Have been given a date from Verona for the next Community Asset Transfer Committee meeting?

I would appreciate a discussion with your after the Community Management Assessment Group meeting tomorrow, if possible.

We appreciate the work you are doing here Alasdair.

Kind regards,

Sam

Appendix 4: Initial Representation

Asset Transfer Request - Poltonhall Bowling Site [Poltonhall Bowling Green and Pavilion]

Bonnyrigg and Lasswade Community Council agree that there is a need to expand the local provision of early year's education and wrap around child care, particularly with the expansion of the town's population and the arrival of young families in the new housing developments. Bonnyrigg and Lasswade Community Council also recognises the experience of the applicant as a service provider and acknowledge the difficulty of securing suitable premises to accommodate any expansion.

However, we have serious concerns about the suitability of the premises in this application. Main concerns are the distinct lack of suitable parking and the inevitable increase in traffic in an already congested part of Bonnyrigg. There are safety issues which the Community Council does not believe have been fully considered. We are also concerned about the proposal to use the car park at the Roman Catholic Church.

Car parking

The nearest car parks are at the far end of Lasswade Centre and also next to Tesco and other stores. Both appear to be fairly well used during the day and we noted there has been damage to the boundary wall outside Tesco Express, presumably caused by a badly parked vehicle. The lay-by outside Lasswade centre is single yellow line restricted in operation from 8am to 4.30pm. There is no suitable parking directly outside the site. The Community Council has recently been involved in discussions concerning car parking with residents in other areas of Bonnyrigg. Our concerns are that parents will drive to the new facility and will most likely want to park as close as they can outside to drop their children off and pick them up at varying times throughout the day. They are likely to be in a rush, late for work, worrying about traffic, so might not be prepared to walk the distance from the car parks. Because of the lack of parking on the Eskdale Drive side of the bowling facility, there is a high risk of parents parking on the main road, close to the traffic lights and pedestrian crossing on Polton Street.

The community asset transfer application states that the applicant will pursue discussions with the Roman Catholic Church over use of their car park, although it does not indicate whether there is yet an agreement in place over this. The Community Council is concerned that parents will not want to take the time and trouble to park there and walk round to the old clubhouse, especially if they have to open and shut the Church car park gate. If the gate is to be left open for the child care drop offs/pickups, how will the applicant stop other traffic from using it? Also, will the entrance to the Church car park be wide enough for the volume of traffic it would be serving?

Perhaps it could be a condition of the asset transfer for the applicant to obtain planning permission to use part of the former bowling green for parking. This would involve additional costs to put in a surface and safe access and egress. Since the applicant proposes to obtain the site for free it would not be unreasonable for them to seek other sources of funding to help with this.

Traffic

The primary purpose of the facility is early years learning and childcare, so it will be used by pre-school children during the day which is the busiest time for traffic. There is already a large volume of traffic around Lasswade Centre, particularly at the start and end of the high school day. If the asset transfer is successful, we believe nearby residents will experience and report increased traffic volume which combined with a lack of suitable parking could result in a serious traffic incident involving a child.

The Community Council suggests that a more appropriate use of the bowling site would be as a community facility for elderly residents, for example for social meetups. The site is on a bus route and may also be accessible for the community bus to drop off and pick up. In the evening it could be used for groups like youth club where parking would not be a necessity.

Bonnyrigg and Lasswade Community Council

Cc: Catherine Duns

Subject: Asset Transfer Poltonhall Bowling Club application from Bonnyrigg After School Club

Dear Alasdair

I am writing as Chairman of Bonnyrigg & Lasswade Community Council to follow up the comments made by ourselves regarding the proposed Asset Transfer of Poltonhall Bowling Club to the Bonnyrigg After School Club. We have been informed by them that the Roman Catholic Church next door will allow the use of their Car Park by the car drivers dropping off and collecting children and additionally, that the BASC will have a staff member monitoring the parking at peak periods.

Clearly this has given us some reassurance that provision has been made for parking. It is likely this provision will be adequate in the early stages when the capacity of the present building is limited. However we understand there are likely to be plans in future for further buildings on the site. Should the extra capacity provided by these plans be considerable it is unlikely the parking would be sufficient for all the drop-offs and pick-ups. This area close to Lasswade High School Centre has challenges for the management of peak period traffic at present and we would not wish to see future increases to capacity leading to a deteriorating child safety environment.

We have been asked to withdraw our objection to this asset transfer as the BASC has made provision for safe parking, and we are happy to do. However we do not have adequate information on the plans for the site to be confident that the parking provision and management will be sufficient in the longer term.

Yours sincerely,

[REDACTED]

Chairman BLCC

[REDACTED]

[REDACTED],

Bonnyrigg,

Midlothian.

[REDACTED]

27th January 2019

Dear Stephen,

I am writing to give representation and express my concerns regarding the recent proposal made by the Bonnyrigg after School Club in regards to the Poltonhall Bowling Green and Pavilion.

Whilst I wholeheartedly support the need to expand early learning and childcare within the community, I have concerns as to how this will impact the residents and local facilities.

As an employee of Midlothian Council and the Lasswade High School, I see first-hand the difficulties faced by an already over populated area.

The increased parking restrictions around the Bowling Club and Pavilion would put pressure on drivers to use pavements and the areas outside our houses to pick up and drop off their children.

The main bay adjacent to the building already has no parking between 8.30-4.30pm Monday to Friday.

I have a driveway that I need clear access to and from to meet the demands of my own work and I feel the proposed request for ownership of the bowling green and Pavilion will encourage people to use this area and block my access.

Whilst I am aware that the area is now patrolled more frequently with traffic attendants, there are currently no restrictions to prevent the above from happening.

I look forward to hearing from you and addressing the concerns I have outlined above.

Kind Regards,

Appendix 5: Assessment undertaken on initial information 04/03/19

Assessed by:	Community Management Assessment Group
Notes 28/01/19	<p>BASC are currently not in partnership with MC for delivering ELC.</p> <p>The plan is not an expansion as they are going to relocate their current nursery provision from Poltonhall Sports Pavilion.</p> <p>Practicalities of ELC sharing space – needs a lot of resources set up and taken down and storage</p> <p>“exponential” population growth, not a term used in Midlothian Profile</p> <p>The 2016 profile has been referenced but there is a more recent version</p> <p>Not strong partnership detail – who else are they going to work with?</p> <p>Statistics on poverty are out of date</p>

“Improved child protection services on offer”? they should have standard procedures in place

Where is the evidence of demand? Early years team not aware of parents being unable to find childcare.

What hours would they be delivering the service?

Consultation wasn't wide – only current service users/parents

£30k in reserves – restricted or unrestricted?

Current let charges for ASC provision at other MC sites could change and impact on financial model

Real living wage is £9 and is required for staff delivering funded ELC

No holiday pay, NI and pension contributions etc

Constitution – no mention of pre-school, all about out of school care and primary age

Disabled access?

Parking is an issue

Costings for internal refurb, cutting the grass, insurance, cleaning, sundries

Condition survey?

See pre application response

5, Very strong	<ul style="list-style-type: none"> Governance and financial arrangements are strong and sustainable Best Value characteristics are evidenced throughout the overall approach Related project benefits are very robust and demonstrate value for money
4, Strong	<ul style="list-style-type: none"> Governance and financial arrangements are sound and sustainable Best Value characteristics are in evidence in the proposal Related projected benefits are demonstrated well and represent value for money
3, Moderate	<ul style="list-style-type: none"> Governance and financial arrangements are in place and acceptable Best Value characteristics have been considered as part of the proposal Related projected benefits are acceptable and could lead to value for money
2, Weak	<ul style="list-style-type: none"> Governance and financial arrangements are weak Best Value characteristics are not well demonstrated in the proposal Related projected benefits are not based on robust information and demonstrate questionable value for money
1, Poor	<ul style="list-style-type: none"> Governance and financial arrangements are poor

	<ul style="list-style-type: none"> • There is little evidence of Best Value characteristics in the proposal • Related projected benefits are ill defined and/or unrealistic and do not demonstrate value for money

Appendix 7: Integrated Impact Assessment

Integrated Impact Assessment Form

Promoting Equality, Human Rights, and Sustainability

Title of Policy/ Proposal	<i>Asset Transfer – Bonnyrigg After School Club Asset Transfer Request of Poltonhall Bowling Site</i>
Completion Date	<i>18th April 2019</i>
Completed by	<i>Catherine Duns</i>
Lead officer	<i>Stephen Bermingham</i>

Type of Initiative:

Policy/Strategy	New or Proposed
Programme/Plan	Changing/Updated
Project	Review or Existing
Service	Other <input checked="" type="checkbox"/> Asset Transfer
Function	
Statement of Intent	

1. Briefly describe the policy/proposal you are assessing.

Set out a clear understanding of the purpose of the policy being developed or reviewed (e.g. objectives, aims) including the context within which it will operate.

Bonnyrigg After School Club (BASC) have applied through the Community Asset Transfer legislation for a transfer of ownership of Poltonhall Bowling Pavilion, including the land inside the fenced area.

The Scottish Government moved forward from the voluntary approach to asset transfer with the introduction of the Community Empowerment (Scotland) Act 2015 (“the Act”). Part 5 of the Act came into force on 23 January 2017 and sets out the formal asset transfer process that must be adhered to if a valid request is received under the Act. The relevant authority must agree to the request unless there are reasonable grounds for refusal.

The Council recognises that asset transfer can empower communities, build the capacity of local citizens and inspire others to create responsive solutions to community needs. The asset transfer process presents local groups and communities with opportunities to get involved in running assets and delivering services; empowering them to help themselves and create a more sustainable future. Community groups wishing to consider the transfer of an asset will be provided with a dedicated member of staff to help build their capacity and to assist with the application process.

The request has been assessed in line with the assessment framework passed by council on 2 October 2018.

What will change as a result of this policy?

Some additional early years services will be offered in Bonnyrigg/Poltonhall

2. Do I need to undertake a Combined Impact Assessment?

High Relevance	Yes/no
The policy/ proposal has consequences for or affects people	Yes
The policy/proposal has potential to make a significant impact on equality	no
The policy/ proposal has the potential to make a significant impact on the economy and the delivery of economic outcomes	no
The policy/proposal is likely to have a significant environmental impact	No
Low Relevance	
The policy/proposal has little relevance to equality	No
The policy/proposal has negligible impact on the economy	No
The policy/proposal has no/ minimal impact on the environment	No
If you have identified low relevance, please give a brief description of your reasoning here and send it to your Head of Service to record.	
Bonnyrigg After School Club’s asset transfer application has been assessed in line with the Scottish Government guidelines.	
The assessment recommends that the committee accept the application due to:	
<ul style="list-style-type: none"> the revised business case 	

- the site no longer being required on the Strategic Housing Investment Plan to accommodate 18 units
- Concerns over parking around the site having been addressed.
- the impact is judged to be limited as this is initially a relocation of existing services , but may have positive impacts if the provision expands both on women , children and economic circumstances

If you have answered yes to high relevance above, please proceed to complete the Integrated Impact Assessment.

3. Sign off by Head of Service/ NHS Project Lead
