

Corporate Solutions Performance Report 23/24 Annual Summary

The number of library events has increased by 7% from last year with 6,135 library events held this year resulting in a total of 81,006 attendees, an 11% increase from those attending events last year. This covers regular events and activities for both adults and children as well as standalone events.

The Summer Reading Challenge, based around the power of play, sport and games, saw over 1,000 children sign up this year (a 15% increase on last year) with 55% of those completing the challenge (a 4% increase on the numbers finishing last year). Nearly 130 events were attended by over 4,000 children and their families and over 21,000 items of junior stock were issued over July and August. As a result, libraries saw 668 new child memberships which reflects the positive engagement of the Summer Reading Challenge.

Book Week Scotland took place in November and 66 events were held across our libraries including Bookbug sessions, author visits, workshops, crafting, school visits and Bookbug bag gifting sessions. Almost 2,300 people attended which was a great turn out for what was a very wet Book Week Scotland. A bookmark design competition was run in partnership with Midlothian primary schools with almost 300 entries having been submitted.

Lend and Mend Hub

This year saw the launch of Gorebridge Library's Lend and Mend Hub. The Hub provides free access to sewing machines and other equipment to allow communities to repair, re-use and upcycle their own items. Gorebridge was one of nine library partners across Scotland in a project funded by the John Lewis Partnership's Circular Future Fund and managed through SLIC (the Scottish Library and Information Council).

Taking a co-design approach, the hubs were developed with insight and expertise from local teams and library members to ensure services were tailored to community needs. Funding granted from the John Lewis Partnership's £1m Circular Future Fund was used for the equipment, training and space upgrades needed to deliver the projects. Following their launch, each library hub introduced an education programme to support new skills development, helping to reduce inequality through equitable access to resources. The first focus was on 'mending', and several workshops and sessions were held with groups such as the SHRUB Cooperative, to teach people the first steps of repairing and re-making.

This is an example of how the library service is transforming and thriving, responding to community needs and giving people access to resources that they may not otherwise have. In line with the Council's commitment to Net Zero by 2030 and the Climate Change Strategy, the promotion of circular economy activities can change the way we use and consume to make the way we live greener, as well as upskill residents and foster new social connections. It is anticipated that this pilot will help develop a long-term model for libraries to be a hub of circular economy activities and external funding has been secured for two more Lend and Mend Hubs due to launch in Summer 2024 in Danderhall and Loanhead Libraries.

Relaunch of our Warm and Well hubs

As part of Challenge Poverty Week in October we relaunched our 4 warm and well hubs. Working in partnership with other services including Communities, Lifelong Learning and Employability, Citizens Advice Bureau, Social Security Scotland and Into Work, a number of workshops and drop-in sessions were held in our Warm and Well Hubs providing advice on benefits, employability support, household budgeting and Cost of Living support and advice. In order to continue to support our communities through the Cost of Living Crisis, Dalkeith Library launched a free coat swap where coats could be donated or taken by those who were in need. A wide range of jackets, hats and gloves were on offer with 127 coats being taken since January.

Library Service Excellence Award

This year, Library Services were awarded the SLIC Library Service Excellence Award for activities that put our communities at the heart of the service. The service has risen to the challenges of a rapidly changing community, creating a series of events and services that respond to the needs to the community, particularly in response to the Cost of Living Crisis. The judges commended the service for these activities and joined up thinking they represent. They also saw a great range of cultural events which have been rewarded by significant increases in library visits and materials issues compared to that of the previous year.

Our website performance

In SiteImprove, the marketing performance platform, our council website's Digital Certainty Index score has been consistently around 10% better than the Government benchmark. We currently have a score of just over 90%. This is a gauge of how the website compares to other sites from the same sector across the UK, in terms of accessibility, usability, credibility, trustworthiness and how well-poised it is to respond to Search Engine optimisation challenges. This is a significant achievement particularly with a minimal website team, in comparison to websites managed by much larger government agencies. This year we received 1,142,941 visits to our website, although this number is based on customers accepting analytic cookies, therefore, we expect figures to be much higher.

Communications and promotion

Our communication and marketing team continue to support services across the Council by promoting key initiatives on our social media platforms, news releases, website and community radio channel. Key successes this year include:

Promotion to encourage participation of the Midlothian Outdoor Festival through a dedicated communications campaign. This includes a new Council website page signposting customers to online booking, media releases, brochure and posters and promotion across our social media platforms. The best performing Facebook post reaching 7,604 news feeds and 406 engagements. The best performing Twitter post reaching 2,123 impressions and 85 engagements.

Communication to encourage the uptake of Bonfire Night Waste Amnesty

contributed to a 21% increase in total uplifts from last year. 510 items were uplifted in total, removing potentially flammable waste from our communities most affected by nuisance fire-raising in the run up to Bonfire Night. A series of social media posts publicised the initiative and provided updates on slot availability. The best performing Facebook post reached 16,847 with an engagement rate of 7.75%, both considered higher than might be considered typical. Best performing Twitter post reached 1,986 impressions.

Activity to promote the uptake of the Health & Social Care Partnership (HSCP) social care strategy survey, canvassing views of residents about future strategic priorities for Midlothian social care provision. A series of social media graphics were created in collaboration with HSCP, each formatted for use on different social media platforms. Combined Facebook posts reached 13,396 impressions and combined Twitter

Encouraging eligible families to apply for free school meals and clothing grants

through a dedicated communications campaign. Short videos were created with school children and the Council's food nutritionist and posted across all social media platforms. Facebook and Twitter posts featured key messages pointing people back to the Free School Meals/Clothing Grant webpages to apply. As a result, in terms of the webforms being received, the majority of those were applications for these supports. The best performing Facebook post reached 8,077 views and 5,635 views via Twitter.

Communications to support the recruitment of more Shared Lives carers, focusing on short break services.

Social media posts were created across all Council platforms publishing the work of the service and soliciting expressions of interest. The combined Facebook posts reaching 14,468 with an engagement rate of 4.66%. Interview footage was shot for inclusion in a new video providing information about the service, which will be released in Spring this year as well as work to update webpages for the service.

Promotion of customer consultations and surveys including:

- Fostering campaign (led externally and supported by the Council's communications service)
- Auchendinny to Rosewell stretch of Core Path (best performing social media post reached 80,468 news feeds with 7,824 engagements)
- Newtongrange former pool site (a series of scheduled Facebook posts publicising an in-person consultation event and signposting to an online questionnaire had a total reach of 112,814)
- Midlothian Local Development Plan engagement actions (Facebook posts for the development plan, with a total reach of 22,066, engagement rate 2825 (12%) and Facebook posts for open space strategy, with a total reach of 16,722, total engagement was 759 (4.5%)).

Policy and strategy

- Consultation with the Trade Unions to prioritise the policy review with requests to focus on disciplinary, resolution, maximising attendance at work, performance improvement.
- Job Evaluation was brought back in-house this year with work undertaken to streamline the internal processes and increase efficiencies.
- A new Hybrid Working Policy was launched following engagement with Trade Unions.
- The Recruitment Strategy was drafted this year and is being finalised for approval, prior to communication and implementation.
- The new Wellbeing Strategy was approved by the Corporate Management Team. The strategy continues to focus on the financial, physical, and psychological wellbeing of our workforce and ensure employees have access to advice, guidance and initiatives which support their health and wellbeing.

Investing in our workforce

- A new programme for welcome, induction, long service recognition and leavers was developed this year. This includes a refreshed face to face induction programme for all new staff and existing staff; and will be supported by a range of online resources provided at onboarding. The introduction of long service recognition and a revised approach to learning from employees exiting the organisation will enable us to learn from employee experiences, understand the reasons for leaving and promote Midlothian as an employer of choice.
- The introduction of shared cost additional voluntary contributions has been approved and work is now underway with procurement and Employment and Reward for implementation. When finalised, a communications plan will support the roll out to all staff to encourage take up to the scheme.
- A new coaching programme has been rolled out across the organisation and the Leadership Team. The Leadership Forum programme for 2024 is agreed and the new Management Forum focusing on practical line management launches in Summer 2024.

Workforce measures

We track our employee turnover rates on a half yearly basis by expressing it as a percentage of employees overall when taking account of all leavers. Consideration of the levels of turnover across services, locations and particular groups of employees helps to inform workforce planning and resourcing. Compared to last year, staff turnover rates have decreased from 10.3% last year to 9.2% this year.

The gender pay gap measures the average female pay (£19.81) versus average male pay (£20.36) within the organisation. The figures show that the Council has more male staff at higher rates of pay by 2.7% in 23/24. This figure has reduced from 2.86% in 22/23.

The percentage of female employees in the top 5% of earnings continues to gradually increase this year to 122 from 120 in 22/23, 115 in 21/22 and 98 in 20/21.

Sickness absence rates for all employees has remained fairly consistent to rates of last year with average sickness days at 11.71 for this year compared to 11.04 in 22/23. For Corporate Solutions, the average number of working days lost due to sickness absence has slightly increased compared to this time last year. Of the FTE days lost, 15% was due to long term sickness, 68% self-certified, 17% short term absence. There are no identifiable trends causing increases in figures, either in short term or long term absences and work continues with each service area to review attendance levels and support those absent to return to work.

Wellness@Midlothian

This year Midlothian Council maintained the Healthy Working Lives Gold Award for over 9 years, through involvement by a committee of dedicated employees volunteering their time and expertise to create and support wellbeing initiatives.

The rolling programme of **Wellness@Midlothian** initiatives continued this year to ensure we are supporting the positive health and wellbeing of our staff. This year 75 wellbeing events were held internally and externally covering cost of living supports, wellbeing and mental health awareness and health checks. A total of 595 staff attended various events organised in house. Events included:

- promotion of free learning opportunities, and a programme around Carer's Week with training from Vocal and Alzheimer's Scotland, raising awareness of the carers policy and supports available. Other promotions included men's health guidance, McMillan cancer support and promotion of volunteer week
- health checks were held across Midlothian Libraries, Schools, Cherry Road and Council depots including Stobhill, Fushiebridge and Bonnyrigg garage. In addition, staff engagement exercises were held in Stobhill Depot and Bonnyrigg Garage to share employee wellbeing information and details of where to seek support on a large range of topics.
- onsite visits were provided by Capital Credit Union to meet staff and provide advice on budgeting and saving. Webinars were delivered from Money Advice Scotland and drop-in sessions from Citizen Advice in Midlothian. In addition, 3 Affinity Connect courses held on financial topics this year. 2 home energy workshops were also delivered to staff.
- in terms of mental health, Trauma Level 1 & 2 courses were delivered, a SQA Coping Strategies Course, a Mindfulness course delivered by Health and Social Care Partnership, and the first series of the Edinburgh College Coaching Course.
- 6 Health walks were held for staff from the Active Travel Team supported by the Sport and Leisure team and special offers for gym membership over the festive period were promoted to staff.

Roll out of Microsoft 365 across the whole corporate estate was completed this year, enabling widescale collaboration and co-production. This has included:

- Phase 2 started in December, focusing on user adoption, service-level workflow re-design, Sharepoint deployment, software rationalisation and data reporting and visualisation. Progressing with the roll out of SharePoint and OneDrive for corporate users by engaging with Infotechtion (a leading M365 delivery organisation), who are providing advice and guidance for key parts of the project.
- Providing Council wide training to corporate staff and elected members, bringing the total to 3,568 attendees across 29 training sessions of 8 different courses.
- Technical deployment of core Office 365 applications across the estate.
- Improved collaboration and efficiencies now being realized in many ways across various areas of Council working.
- Linkage (federation) of Microsoft accounts with NHS and other local authorities enabling chat, video-calling, and efficient calendar appointment scheduling (free/busy status visibility).
- Increasing the security of the M365 environment by implementing tighter Bring Your Own Device controls.

Education and Equipped for Learning

As part of the equipped for learning project, 500 new Smart Screens installed this year across the school estate. As well as providing a superior teaching and learning experience, the new panels reduce power consumption by 50%.

36 physical primary school servers were consolidated down to just 3 this year. This significantly reduces power requirements and CO2 emissions. This also allowed us to reduce the number of servers, thus reducing complexity and maintenance time of these systems.

Significant progress was made towards simplified meeting scheduling, enabling calendar visibility across Google and Microsoft accounts which went live in January 2024.

Workplaces of
the future

TB: THEME 3

Digital Systems and Infrastructure

A range of improvements have been completed this year to facilitate a more efficient organisation and improve how we work:

- Completion of a major upgrade to the Citrix platform, significantly enhancing security and efficiency. Citrix is used by approximately ¼ of corporate staff.
- Cloud First strategy continues with successful migration of several major business systems to the Cloud increasing resilience, simplifying maintenance reducing power consumption and CO2 emissions, and providing increased functionality -
 - Contact Centre's Netcall Liberty telephony management system
 - Capita One Housing system
 - Spydus, the new Library Management System
- Replacement, upgrade or removal of all Microsoft Windows 2012 Servers and upgrade to Commvault Backup System. This ensures that we do not have any old unsupported (and unsecure) server operating systems and hardware. Eight servers and four storage arrays replaced by four new servers. Again, reducing power, CO2, as well as increasing performance and reducing complexity.
- Performance and security of remote-access to Council network improved through roll-out of new Global Protect solution.
- Education access and utilisation of the internet is now more secure via LightSpeed roll-out which blocks inappropriate websites, and alerts staff to any potentially concerning internet searches / usage from pupils, improving the safety for pupils.
- ForcePoint Cloud was successfully rolled out across the corporate network to enhance our internet security, significantly reducing the likelihood and impact of cyber threats.
- Deployment of Corporate WiFi at the Stobhill depot.
- Migration from a poor point to point WiFi system at Pathhead to a reliable 4G solution.

Cyber Security

This year we were successful in managing and mitigating a major cyber incident. All systems and data were fully secured due to rapid response and multi-team effort during out-of-hours. A testament to the groundwork previously done to block, minimize and mitigate cyber attempts, as well as the dedication and professionalism of the workforce.

In addition, various cyber security initiatives and events have taken place this year:

- **Phishing Exercises:** Designed and executed realistic phishing exercises to evaluate the resilience of the organisation against social engineering attacks.
- **Elected Member Cyber Security Presentation:** Communicated key cyber security threats and mitigation to elected members, enhancing overall awareness.
- **Staff Security Presentation:** Delivery of security presentations to staff, ensuring a widespread understanding of cyber security risk and protective measures.
- **Setup PDNS (Protective DNS) for the Schools Network:** To strengthen the overall resilience of the schools' network against malicious attacks.
- **Implementation of Key Technical and Business Processes:** Collaborated with teams to integrate security and compliance measures into new technologies and workflows, minimising potential risks e.g. Projects such as M365 and Google Workspace etc.

Business Applications

A range of Business application upgrades were completed this year including TotalMobile, CivicaPay, Citizen Space, Mosaic, Open Revenues, Legend, Capita ONE. ITrent was migrated to a hosted server and an annual data cleanse of casual employee data was complete. A complete revision of all data and creation of a new agency was carried out as part of a Homecare and CM2000 project.

Other achievements this year included:

- Successful roll out of a Print and Post service across the Housing Services team ensuring that customer correspondence in relation to Housing Services is sent out timeously, whilst reducing internal resource, postage and stationary costs required to do so. In addition, the Operational Support team worked closely with Housing Services to review and enhance the information published on our website with the aim of improving customer access to information and reducing the volume of enquiry type calls received.
- The replacement of 82 multi-functional devices and printers across our school estate.
- The completion of the replacement programme for vehicle trackers across our fleet.
- A review and cleanse of unused mobile phone connections was carried out this year with 387 disconnections made in total.
- A new contract for Vehicle Telematics awarded resulting in reduced costs for the support and maintenance of the application. The new contract also includes free replacement of hardware and potential for the introduction of mobile apps for driver safety and compliance.

Invoicing

Work continues for the rollout of invoice approval processes. Fushiebridge Depot, a high-volume invoice service, was fully onboarded to invoice approval this year. Work to onboard Fleet Services and expand invoice approval in Property Maintenance was fully implemented. Invoice approval was also implemented in Catering Services for non-food purchases. Moving away from paper-based invoicing to invoice approval system management allows for a greater level of audit, performance management and data, leading to more up to date financial monitoring and real time reporting. The percentage of invoices processed via a green slip (paper-based invoicing) has reduced from 15.3% in 22/23 to 12.1% this year.

The rate of invoices paid on time across the Council is 92.6% (target is 95%), an increase from 90% paid on time in 22/23. A total of 109,847 transactions were processed in 2023/24, of which 90,076 were included in the Statutory Performance Indicator (SPI) invoice calculation with an average of 12 days to pay an invoice. The team made 16,411 direct payments to bank accounts to cover Free school meals during the holiday periods, Energy bill support scheme, Ukrainian Host payments and Business Covid recovery grants. 3,360 internally generated payments were processed including grants, corporate appointees, salary deductions and treasury activities.

Supporting the Cost-of-Living Crisis

Requests for crisis funding continue to remain consistently high, with 100% of the revised Scottish Welfare Fund (SWF) budget up to and including Q4 allocated. (114% of the original budget). 6,766 applications have been received for Crisis Grants this year (1,789 during Q4). 1,349 received for Community Care Grants (320 during Q4). This demonstrates the significant challenge faced by our communities. The successful recruitment of the Scottish Welfare Fund Assessors will not only allow the team to respond and address the current backlog of processing activities but also analyse the reasons for the high number of applications and refusals to identify preventative activity to mitigate people reaching this crisis point. This is identified as a key action in the Child Poverty Action Plan. In addition, 11,721 customers received help and support via housing benefits this year.

As part of the UK government's support to consumers with their energy costs this winter via the Energy Bills Support Scheme (EBSS) and Alternative Fuel Payments (AFP), Business Services successfully administered these schemes this year through verification of applications against the criteria set by the UK government, approval/rejection of applications and payments made to successful applicants.

Payroll

The Employment and Reward and Business Applications Team successfully implemented the Local Government Pay award and associated back dated payments at the start of this year. Work was carried out to improve our processes and controls in relation to salary overpayments which has reduced monies owed to the Council. Further work was carried out in Employment and Reward to review various employee processes resulting in the introduction of e-forms and workflows to manage special leave/extended unpaid leave/career breaks/sabbatical requests, flexible retirement, new post and recruitment authorisation and onboarding processes.

Legal and Compliance

This year our Legal Services team concluded various Section 75 agreements to enable housing developments across Midlothian including:

- Newbyres, Gorebridge for 96 homes
- small scale housing development at Robertson Bank, Gorebridge
- Lingerwood Farm, Newtongrange for 1000 homes
- land to east of Glenarch Lodge, Dalkeith for 6 units
- land south west of Newlandburn house, Gorebridge for 10 units

The team negotiated the purchase of 19 properties on the open market to support the Council's social housing programme, and purchased 11 buy backs, 53 affordable housing units at Roslin and land for 11 units at Pathhead to increase the Council's housing portfolio.

Other in-house legal work this year included:

- Provision of servitudes across Council land to enable development of adjacent housing sites. In particular, receipt of £519,532 in March as consideration for granting two servitudes at Oak Place, Mayfield which were required for a housing development adjacent to Council land.
- Land sales for garden ground, tree preservation and charging orders at various locations.
- Purchase of Millerhill Hub community facility from Shawfair LLP pursuant to Shawfair S75 Agreement. This involved agreeing additional transfer provisions for special district heating obligations, mutual car parking arrangements and special arrangements to take effect when the new (adjacent) retail unit is being constructed. An in-house legal fee will be received for this work.
- Completion of legal documentation, conclusion of missives at various sites, securing of Scottish Government funding.
- Conclusion of film location agreement at Vogrie House.

The Continuous Improvement Team transferred from the Chief Executive's Office to Corporate Solutions part way through 2023/24. The team supports the required step-change to ensure that as an organisation we learn from feedback and complaints received and improve service delivery as a result of driving forward a culture of continuous improvement.

A key success this year has been the introduction of the 'Contact Us' customer feedback and complaints module, with a central resource to support and deliver an improved process and experience for the customer.

Corporate Solutions 23/24 Performance report

Corporate Solutions will “deliver forward looking services fit for a modern 21st Century organisation and put the citizen at the centre of service redesign”.

Corporate Solutions encompasses Human Resources, Digital, Customer Engagement, Legal & Governance, Corporate Resources, Transformation PMO and Continuous Improvement.

Corporate Solutions supports the whole Council delivering services to internal and external stakeholders, playing a key role in the delivery of the Council’s Medium Term Financial Strategy and ensuring organisational compliance, developing the workforce, and advancing transformation.

Transformation and opportunities

Transformation Blueprint (2023-2028)

We are committed to building on the learning and new ways of working that were adopted during the pandemic and renewing our focus on delivering our key priorities at the most local level possible. Rooted in the creation of a wellbeing economy, the vision of the 5-year Transformation Blueprint focuses on reducing inequalities at the same time as looking after the health of our planet.

Specifically, we have three main aims

- Individuals and communities have improved health and learning outcomes.
- No child or household live in poverty.
- Significant progress is made towards net zero carbon emissions by 2030.

The pandemic has accelerated the financial challenges that we are facing. Reprioritisation and redesign are crucial to balancing the financial position, as well as preparing for further challenges, continued growth, and unknown changes that we will face.

The Blueprint sets out key areas of concern that need to be addressed over the next five years. We will continue to work to address the inequalities that our communities face, respond to the demands of being the fastest growing local authority in Scotland, and delivering our vision of being a great, green place to grow.

Transformation Blueprint Objectives

1. Support the Council to address the 5-year funding gap outlined in the Medium Term Financial Strategy (MTFS)
2. Follow the Money to ensure that the services we commission, contracts we manage and digital solutions we use deliver value for money.
3. Develop an organisational workforce that is flexible ensuring that all staff have the necessary skills to work effectively supported by digital technologies that fit for a 21st century workforce.
4. Design a workplace for the future delivering services in a holistic and integrated way.
5. Drive forward multi-agency transformation to deliver systems-level change resulting in joined-up service delivery which improve outcomes.

The Council's transformation blueprint provides the framework for opportunities to change the way services are improved and delivered to be more efficient. Corporate Solutions has a particular focus on delivering digital first approaches, embedding automation to improve customer access to services and hybrid working.

Customer Engagement

Aligned to the Transformation Blueprint, priorities for 2023/24, key work streams below:

Short term:

- Continued rollout and implementation of Customer Service Platform
- Reviewing service delivery all across Contact Centre teams
- Increased use of eBooks
- Active promotion of library space, for Council and partner services, and enable out of hours access for communities

Medium term:

- Rollout of the Hub & Spoke model with libraries providing and facilitating increased local service provision
- Customer Engagement Strategy development including revised communications and engagement plan
- Launch of the new mobile library service

Long term:

- Increase income within Registrars through alternative ceremony offer
Community and school library redesign

Communications and Marketing:

- Promoting the council's vision, strategy and plans such as a Great Green Place to Grow, Transformation Blueprint, Wellbeing Strategy, Climate Change Strategy and carbon charter to both an internal and external audience.
- Raising awareness of the ways that people can take part to influence how public services operate e.g. public consultations such as Midlothian Local Development Plan, town centre regeneration projects, and catchment area consultations.
- Supporting service redesign and the delivery of change, e.g. supporting the shift to the new customer service platform which will enable citizens to do much more online via our website.
- Promotion of behavioural change, for example by encouraging residents of Midlothian to recycle more or travel more actively or improve their health and wellbeing.

Key achievements this quarter:

Library services

Our library services continue to transform and thrive in responding to the needs of our communities. This year there has been a 22% increase in total library visits compared to the same period last year with a 34% increase in physical library visits. This increase in footfall demonstrates the impact of our Warm and Well Hubs and other support services and initiatives provided to our communities.

Q4 saw the highest total number of physical visits since 2019.

Q4 also saw the highest number of virtual library visits so far, indicating the continuing popularity of eResources on offer.

Key events delivered:

- Local History Month was held in May and across all libraries, there was a varied selection of activities, from displays, class visits and treasure hunts to lectures and talks on topics as diverse as the history of fashion to folk music. The Reminiscence & Memories Scotland groups had guest speakers come to many of their regular scheduled sessions, adding a new dimension to them to mark the month. 33 activities and events were held with nearly 600 people taking part.
- Providing free story, songs and rhyme sessions for babies and toddlers. This quarter we have launched two new Bookbug sessions. Penicuik Library has started a sensory friendly session on Saturday mornings providing softer lighting, gentle songs and tactile interaction for children with additional support needs. Dalkeith Library has established a Polish Bookbug session which started as monthly but is now fortnightly due to demand.
- This quarter, Danderhall Library hosted a functional fitness event held by Ageing Well where nearly 40 people went through the functional fitness test then enjoyed the free soup, tea and coffee provided by the Warm & Well Hub. A representative from the Red Cross was also there to provide information, advice and signposting. This is a great example of partnership working in our communities.
- Boardmaker - a symbol-based software used to create visual resources, personalised visual timetables and reminders, for people with communication, attention or memory challenges. This quarter, library staff received refresher training. Some feedback from one parent who used it for her daughter was *"I printed images onto a breakfast board with her favourites items to eat. My daughter who is able now to have her own voice by choosing the symbols letting me know what she wants for breakfast (the first time in 5 years)."* The software is available in 5 of our libraries, Dalkeith, Gorebridge, Loanhead, Newbattle and Penicuik.

In March this year, a total of 750 people in Midlothian completed the Scottish Public Library Annual Survey, with comments highlighting the value of our local library services and staff. 99% of respondents said the library is important to them.

Channel shift

Channel shift work continues with the rollout of short term lets, assisted bin collection requests, grit bin requests and Contact Us through our Customer Service Platform. This quarter saw the introduction of the elected members case management system and new/replacement bin/box forms.

Several other service requests are in test phase and due to go live in 24/25 including:

- bulky uplifts
- online application forms for school clothing grants and free school meals
- forestry inspections
- general enquires
- direct debit online sign up for Council Tax, rent and other payments
- access protection markings requests
- Vogrie parking passes

Q4 shows a general increase of channel shift by 14% from the previous quarter. The main reason for this is the annual sign up of the brown bin service which has generated over 15,500 online forms. This greatly exceeds any other online form for any other quarter (Q1 2,300 brown bins, Q2 1,300 for free school meals and Q3 1,304 for pupil registration).

Data shows a 5% reduction in call volumes compared to last year and a 37% increase in contact received digitally by email. Overall, customer contact volumes remain consistent over the year to date.

Call abandonment rate has remained the same this year compared to last year with a 7% abandonment rate. This abandonment rate calculates the total number of calls that come into the call queue and then leave the queue. There is no ability to analyse why calls are abandoned - callers may choose to hang up because they would rather not wait, or they have called at an inopportune time. Front-end messages are updated on contact centre lines to provide information to the customer waiting, for example, if a whole street of bins had been missed, this would be reflected in the front- end message. Lines also have messages directing people online to carry out transactional activity.

Stage 1 complaint responses across Corporate Solutions are off target. As part of the implementation of the new online complaints portal, there has been an increase in stage 1 complaints received through this self-service option. However, some of these are service requests and not complaints, and work is ongoing to better signpost customers to service requests options where that is more appropriate. This volume, coupled with the Festive shut down has contributed to a slower response time for stage 1 complaints.

Communications and promotion

The promotion of the garden waste collection service to drive sign ups to the garden waste subscription scheme for 2024. A series of social media updates were posted publicising dates, changes to prices and application information. Posts comprised of a suite of graphics and an animated video updated with new information for 2024. Facebook posts had a total reach of 127,900. The best performing post, from the day the service launched, had a reach of over 29,100, and an engagement rate of 12.31%, exceptionally high for the platform. Facebook continues to be the best means of reaching residents with this type of information. The platform continued to have lots of lively debate in the comments and aside from instances of criticism for charging for the service and the price increase, there were many positive comments posted. Customers legitimately seeking help were also able to have questions about payments answered by the call centre team, fostering better engagement and two-way communication.

One ongoing social media campaign to promote **Social Security Scotland's Drop-In Services** at libraries throughout Midlothian and one short social campaign to raise awareness of the updated offering of the Best Start Food Grant.

Pharmacy First social media campaign - supporting Midlothian Health and Social Care GP surgery teams with social media campaign encouraging patients with minor ailments to administer self-care at home, check symptoms online, and attend a local pharmacy for help before phoning their local surgery. The main (unstated) aim of this was to help relieve pressure on GPs during the busiest time in of the year.

Mental health service videos were filmed, edited and issued publicising mental health services available to Midlothian residents. One focused on the Mental Health Practice Nurse service available through GP surgeries; the other on Midlothian Access Point (MAP), which provides signposting assistance linking patients to local mental health services.

Human Resources

To achieve the Council's strategic priorities, we recognise that people are our most important asset. Our workforce strategy highlights that we need to attract the best talent, grow our own talent ensuring there are clear progression pathways, ensure our workforce feel engaged, valued and motivated and importantly, empower our staff to enable them to reach their full potential.

Our workforce vision is to work as **One Council** using our knowledge, experiences and sense of shared endeavour to collaborate and think creatively and innovatively so that our people can deliver life-changing impacts for our communities. Our new ways of working mark a clear desire for cultural change and a shift towards a more agile and modern operating model.

Our workforce is key to the delivery of the Transformation Blueprint. In order to ensure a thriving workforce, key areas of focus for 2023/24 will be:

- Investment in Organisational Development through a focused programme of work
- Completion of workforce plans in all services, with a particular focus in high risk areas
- Rollout of the Wellbeing Strategy
- Delivery of the Recruitment and Retention Strategy

Key achievements this quarter:

Wellbeing

In conjunction with Midlothian Voluntary Action's project MFIN (Midlothian Financial Inclusion Network) and the cost of living agenda, HR and Communications staff were involved with promoting support available through partner agencies to combat the cost of living pressures currently being experienced by employees and friends and family living in Midlothian communities. This included awareness of supports for debt advice, energy costs, healthy eating and stress management.

The HR team continue to focus on long term sickness absence with 606 cases supported by HR across all directorates. The HR team are proactively working with managers and their teams to support them in their absence management, helping to tackle and reduce sickness absence, complimenting the range of health and wellbeing support provided by the Council to all employees. The HR team provides training for managers in absence management processes, and provides statistics on a regular basis, to enable managers to measure and manage the long and short term absence in their areas. This work is resulting in progression of absence cases, capability hearings and return to work this year as well as the more efficient management of employee relations cases to bring these to a conclusion.

HR commission services including an Employment Assistance Programme, Physiotherapy services, Occupational Health and work in partnership with local and national agencies to offer counselling, health and lifestyle advice, health plans and treatment guidance for the workforce. Employees can self-refer to the Employment Assistance Programme from MCL medics which provides life style support regarding relationship issues; work/life balance, stress, nutrition, sleep and can be accessed 24/7. 8 sessions of counselling can be offered free of charge, where the employee requires this level of support. Physiotherapy services of up to 4 free sessions can be accessed by the employee to receive treatment and advice for Musculoskeletal injuries and various health conditions to improve movement and mobility.

The HR team worked with procurement to renew the contracts for physiotherapy provision for staff and the non-financial benefits platform.

21st century workforce - workforce strategy, recruitment and retention

Consultation took place this quarter with Local Government Workers and Teaching Trade Union colleagues on the new Overpayments and Underpayments Policy. The final policy was approved by CMT for launch in May 2024.

Work is underway this quarter to refresh the Voluntary Severance/Early Retirement (VSER) Policy and ensure that offers set out in the policy are brought inline with statutory payment values.

Recruitment for a Human Resources/Organisational Development advisor was undertaken this quarter and a new officer due to start in spring. This role will be vital in taking forward key pieces of work around leadership and management and upskilling managers across the organisation.

Digital

Digital solutions underpin the Transformation Blueprint. Key work streams include:

- Review and refresh of the Council's Digital Strategy, including reprioritisation of projects to enable change and transformation
- Development of a Data Strategy and pilot projects such as the secure sharing and analysis of collective, operational level NHS & Council data
- Continued rollout of compliance and cyber security protective measures, including attainment of PSN and Cyber Essentials certification, and actioning any related recommendations
- Implementation of Microsoft O365 capabilities and applications to enable organisational efficiencies, collaboration and data driven decision making
- Delivering service improvements in frontline teams through projects such as digital transformation of Neighbourhood Services
- Continue the roll-out of the Customer Services Platform to promote channel shift
- Equipped for Learning: upgrade classroom Audio Visual estate with interactive smart screens and support the pilot of Virtual Class delivery
- Upgrading Call Centre digital infrastructure elements
- Refreshing / improving quality and coverage of corporate WiFi network
- Ensure all digital aspects of Council operations are well supported and operational

Key achievements this quarter:

Successes achieved this quarter were:

- Improving the security of the Google Workplace by implementing recommendations after a recent audit.
- Completion of the Looker Studio Project with a view to putting sensitive information into Google, allowing Staff to better track how their students are doing and allowing them to adapt or intervene appropriately.

- Agreement to move the School websites from CampusPress to Google Sites. This will see improvements to the websites and a common theme applied. There will be cost savings as there is no charge for Google.
- New Aruba test WiFi network installed in Education and staff are continuing with the audits of the Education buildings for digital infrastructure requirements and upgrades.
- Replacement of the damaged fibre cable which provides network connectivity to the music block at Penicuik High School.

Technical Design Authority / Digital First Board: a new process was developed this year to effectively govern and prioritise new digital projects, helping to ensure resources are being assigned to highest impact projects, and that digital project best practices are leveraged from the start. This process is being piloted via a refreshed Digital Delivery Board and focusing on a digital project for Neighbourhood Services.

Digital Maturity Assessment for HSCP: Assessment was completed in collaboration with HSCP and CYPP as part of Scotland-wide HSCP digital maturity exercise. Assessment focus re-enforced our already identified priority focus areas/challenges and provided opportunity to highlight where Midlothian HSCP is leading the way across Scotland (e.g. COPD pathway)

Corporate Resources

Key priorities for the service in 2023/24

- Redesign of business processes to achieve efficiencies across all of Corporate Resources
- Making more use of current applications to enable self-service e.g. viewing Council Tax and rent accounts online
- Continued upgrade of applications

Key achievements this quarter:

The Business Applications Team continue to work with Scottish Government's e-commerce team on next steps for the e-invoicing programme and onboarding of suppliers to this service. 3 new suppliers were onboarded last quarter.

The percentage of current housing rent arrears sits at 12.77% for 23/24, an increase from last year of 10.78%. In year Council Tax collected year to date is 93.8% showing a slight decrease from collection rates this time last year by 0.7%.

Revenues and Benefits

Average processing times (days)

Change of circumstances

New claims

Number of Crisis Grants (quarterly)

100% of Scottish Welfare Fund budget spent this year.

Number of Community Care Grants (quarterly)

Grant applications deemed as ineligible are in general those that have exceeded the maximum amount of 3 applications in a year or customers who do not meet the set criteria for the award.

Legal and Governance

Key priorities for the service in 2023/24

- Delivery of the 2024 UK Government elections including voter Identity implementation
- Review of the Council's governance framework with revised Standing Orders and Associated Scheme(s)
- Implementation of the new Subject Access Request portal
- Development of the new Procurement Strategy, with a focus on social value, the introduction of a Council wide approach to Community Benefits, and an increased focus on local procurement
- Aligned to the Transformation Blueprint, undertake a review of Contract and Grant Management

Key achievements this year:

The legal court team continue to protect the Council's interests and deliver suitable outcomes for children and vulnerable adults. Additional special needs tribunal work was brought back in house this year and input was provided to the Mental Health Law Review consultation.

Procurement

An Interim Procurement Manager has led the team over the last few quarters with significant work undertaken including:

- An overhaul of the Contract Database
- Research and investigation into the use of a Concession contract, identifying and benchmarking of a suitable tender and preparation of all necessary tender documentation including suitable Terms and Conditions with support from legal services.
- The Council's standard Terms and Conditions for all other contracts have been updated with support from legal services.
- The procurement strategy peer review process has been streamlined to ensure audit trail and accountability.
- The Non-Competitive forms and templates have been reviewed and updated to ensure compliance with Regulations and Standing Orders.

A short life working group has been established to review contracts within Health and Social Care including the appointment of a dedicated Procurement Officer. A programme of work is being delivered to bring all off-contract spend onto relevant frameworks. A key piece of work that has commenced with Midlothian Health & Social Care Partnership and Procurement is involvement in the development of the Scotland Excel (SXL) Care and Support Contract which SXL are retendering with a go live date of April 2024. This approach provides a route to compliant commissioning for almost £16.5m of social care expenditure. It is anticipated that this would reduce the resource that would need to be invested in commissioning and avoid costs associated with a recommissioning / tendering process and could potentially mitigate some of the inflationary budget risks associated with a recommissioning exercise.

Programmes of work like this are part of the Transformation Blueprint 'Follow the Money' theme, looking at commissioning, contracting and identifying savings and efficiencies that can be made across the organisation, particularly in high risk/high spend areas.

High value and complex contracts were awarded this year and include the supply of fire doors, purchase of A2D (Analogue to Digital) Telecare Equipment, Insurance tender renewal, website hosting and support, purchase of refuse collection vehicles as part of the fleet replacement programme and the mobile library vehicle. In addition, Primrose Lodge tender was issued and published with a contract value of £3.9m. Over 50 new contract extension letters issued to Adult Care providers and over 70 letters issued regarding uplifting the Living Wage.

Local Procurement - The Council has now set up its own framework contract for interim Multi Trade Works - all suppliers on the framework are Midlothian based.

Legal and Governance – performance measures

Access to information

Number of Freedom of Information requests received (quarterly)

44 legal commercial transactions undertaken this year (12 in Q4)

Continuous Improvement

The Continuous Improvement Team transferred from the Chief Executive's Office to Corporate Solutions part way through 2023/24. The team supports the required step-change to ensure that as an organisation we learn from feedback and complaints received and improve service delivery as a result of driving forward a culture of continuous improvement.

Key priorities for the service in 2023/24:

Working with services to focus on performance measures and supporting approaches which deliver improved outcomes, including:

- The introduction of a revised Planning and Performance Management Framework (PPMF) and a newly developed Best Value Framework (BVF).
- Revising the Midlothian Excellence Framework (MEF), our corporate self-evaluation tool, to reflect changes to the Public Service Improvement Framework (PSIF).
- External data submission, monitoring and reporting of Local Government Benchmarking (LGBF), including maintenance of the LGBF dashboard on Pentana for elected members.
- Developing and introducing a dashboard and reporting structure within Pentana to reflect the changes introduced by the Community Planning Board for the Single Midlothian Plan 2023-27.
- Key contact for corporate level external scrutiny activities such as the Best Value Thematic exercises undertaken by our external auditor.
- Facilitating a review and update of all policies and procedures in place to deliver the Council's strategic outcomes and ensure alignment with overarching strategies.

Key achievements this year:

A key success this year has been the introduction of the 'Contact Us' customer feedback and complaints module, with a central resource to support and deliver an improved process and experience for the customer. While development and support is ongoing, improvements introduced include:

- Ensuring that all complaint cases logged are complaints – 2022/23 6478 cases logged, 2023/24 1490 actual complaint cases logged.
- Customers can now raise complaints directly with services.
- Incorrectly logged complaints can be withdrawn or redirected easily within the system.
- Consistency and timeliness of responses are supported by auto-generated prompts and auto-email templates.
- All stage 2 investigations are subject to review prior to issuing a response.
- Adherence to statutory processes and statutory reporting is built into the system.
- Regular and real time updates and reporting introduced which better supports improvement activity with data being more readily available.

Managing and supporting the Council's commitment to equality and diversity, responding effectively to equality, diversity and human rights related matters and ensuring that the Council complies with legislative requirements under the Equality Act 2010, while keeping abreast of good practice and any government initiatives/legislation with a link to equality and diversity such as UNCRC.

Key actions include:

- Timely publication of the Equality Outcomes and Mainstreaming Progress Report 2021-2023
- Ongoing monitoring of equality related action plans (Midlothian Equality Plan 2021-2025, Gaelic Language Plan 2021-2026, British Sign Language Plan 2018-2024)
- The establishment of a working group to ensure that the delivery of the Transformation Blueprint and associated transformation workstreams are fully informed by an equalities and inclusion lens.
- Development of the new British Sign Language Plan 2024-2030

Challenges and risks

Financial position

Council approved the 2024/25 budget at its meeting on 27 February 2024. Whilst the 2024/25 budget is agreed, the challenge remains to reach ongoing financial sustainability. Cost and income projections for future years are embedded in the Council's Transformation Blueprint which contains a range of transformation themes to drive towards a position of financial sustainability. Officers continue to work closely with the Business Transformation Steering Group to respond to the challenges.

Financial Services continues to work to ensure the Council has robust financial management arrangements in place with a full suite of financial monitoring reports regularly presented to Council. The team continues to provide in-depth financial input to revenue and capital projects embedded into the Medium Term Financial Strategy and successful delivery of the Treasury Management Strategy with Midlothian's Loans Fund Interest rate now the lowest in Scotland.

Growing Council

The draft 2022 Census results have now been published. They show Midlothian with an increase of 16.1%. The 2011 census data lists Midlothian as having a population of 83,187 which has risen to 96,600 in the 2022 census data. The level of growth is 2.3% higher than our previous calculation and is now 13.4% higher than the Scottish average of 2.7%.

In terms of households, Midlothian saw the highest percentage increase at 17.2% since the 2011 census. Population density in Midlothian is 273.1 residents per square kilometre compared to the Scottish average of 69.8. Midlothian has 10 data zones which fall into the most deprived areas.

Economic pressures

Inflation, as well as rising energy costs, are affecting the construction industry in Scotland. The UK is experiencing unprecedented adverse market conditions, leading to significant rises in tender prices for a wide range of materials. There is evidence that inflation of between 10% and 15% beyond BCIS predictions is affecting projects. The pandemic has also accelerated financial challenges, and the growth from being the fastest growing local authority in Scotland places significant pressure on Midlothian to be able to deliver high quality services to its citizens.

Capital Investment Strategy

Midlothian's approved Capital Investment Strategy sets out the infrastructure required to meet these demographic pressures and includes the financial contributions Midlothian will make to the Edinburgh and South East Scotland City Region Deal. Encompassing five main themes the City Region Deal will bring significant investment across the regions with total investment of circa £1.3 billion across:

- Data Driven Innovation: £751 million

- Integrated Regional Employability and Skills: £25 million
- Transport: £156 million
- Culture: £45 million
- Housing: £313 million

The Capital Investment Strategy sits centrally within the Council's future planning activities and in doing so has to reflect the demands of Council services to ensure positive outcomes are achieved in the right place, at the right time, for the maximum benefit to Midlothian. The extensive capital programme aims to deliver new schools, investment in council housing, improved community infrastructure, investment in the local transport network and innovative developments such as the new low carbon heat network in Shawfair.

In response to all these pressures, a range of reprioritisation activity is taking place, with a revised Capital Investment Strategy being considered by the cross-party Business Transformation Steering Group, and options to review what and how services are delivered as part of the savings measures to reduce the funding gap recommended to Council.

Cost of Living Crisis

Midlothian's citizens are facing significant financial challenges. The impact on households continues to be noted across the UK with 49% of adults reporting an increase in their cost of living in December 2023 (Office for National Statistics; Francis-Devine et al, 2022). The UK is currently facing an unprecedented wave of increasing prices, bills and tax challenges. The 41 year high inflation rate of 11.1% in October 2022 has been the main driver of the cost of living crisis which has outstripped wage and benefit increases. Recent data shows the annual inflation rate was 4.0% in December 2023, up slightly from 3.9% in November. The price rises continue to impact low-income households hardest as a larger proportion of their costs are on energy and food. The Resolution Foundation estimates that absolute poverty is set to rise in the short- run, from 17.2% in 2021-22 to 18.3% in 2023/24 (or an additional 800,000 people in poverty).

As our citizens feel the impact of the Cost of Living Crisis, they will seek additional support from public services; in particular local authorities. To respond to this emerging crisis, the Council established a Cost of Living Task Force in 2022, which is chaired by the Council Leader and meets regularly to coordinate mitigating activities.

National Care Service

The estimated funding gap for the next three financial years does not include the associated costs of the Scottish Government's National Care Services (Scotland) Bill. If enacted, the bill would have fundamental implications for the community and for Local Government itself. The wide reaching changes in the bill aim to deliver a National Care Service by the end of the parliamentary term, which will impact on all aspects of the work of the Corporate Solutions team, including financial implications, in both revenue and capital, our asset base, our workforce, governance and legal arrangements and our digital infrastructure

and platforms. It will require an immediate focus for the foreseeable future, and this will inevitably have implications for other priority work at a time of continued resource constraint.

Risk

The Council's Strategic Risk Profile is presented retrospectively to Audit Committee quarterly. The most critical risks to the Council are Financial Sustainability, Climate Change and the Change Programme. Corporate Solutions is key to the delivery of mitigating actions to these risks; through strategic planning and driving forward transformation.

Pentana Performance Dashboard
