

Financial Monitoring 2013/14 – General Fund Revenue

Report by Gary Fairley, Head of Finance and Human Resources

1 Purpose of Report

The purpose of this report is to provide Council with information on the projected performance against revenue budget in 2013/14 and details of the material variances that are projected.

2 Background

2.1 Budget Performance

The detailed budget performance figures shown in appendix 1 result in a projected net underspend of £0.796 million which is 0.41% of net expenditure.

Performance against budget has improved compared to the quarter 1 position. The main reasons are;

- A Council wide reduction in staffing projections of £0.405 million,
- An increase in projected income from Development Management and Building Standards fees of £0.137 million,
- A further increase in Council Tax Income as a result of continued household growth of £0.299 million.

Detailed information on material variances is contained in appendix 2 which identifies each variance, explains why it happened, outlines what action is being taken to control variances and details the impact of that action.

2.2 General Fund Reserve

The projected balance on the General Fund as at 31 March 2014 is as follows:

	£ million	£ million
Reserve as at 1 April 2013		14.083
Less earmarked reserves utilised in 2013/14		(5.762)
General Reserve at 1 April 2013		8.321
<i>Planned movements in reserves</i>		
Planned Utilisation/Enhancement of Reserves	(0.009)	
Supplementary Estimates	(0.199)	
Business Transformation Costs	(0.704)	
Other	0.068	
		(0.844)
Underspend per appendix 1		0.796
General Fund Balance at 31 March 2014		8.273

The General Fund Reserve at 31 March 2014 is projected to be £8.273 million of which £0.744 million is earmarked for further Business Transformation work leaving the uncommitted reserve at £7.529 million. This is an improvement of £0.841 million compared to quarter 1.

A prudent level of uncommitted reserves is seen to be 2% of net expenditure which equates to approximately £4 million. The General Reserve shown above is £3.529 million more than this. However there will be further one-off costs associated with the Business Transformation programme which would reduce the general reserve and it may also be required as a buffer to offset any slippage in the achievement of planned savings.

3 Report Implications

3.1 Resource

Whilst this report deals with financial issues there are no financial implications arising directly from it.

3.2 Risk

Section 95 of the Local Government (Scotland) Act 1973 requires all Local Authorities in Scotland to have adequate systems and controls in place to ensure the proper administration of their financial affairs.

The assessment of performance against budgets by services is underpinned by comprehensive financial management and budgetary control arrangements. These arrangements are central to the mitigation of financial risk.

Ensuring that adequate systems and controls are in place minimises the risk of significant variances arising, and where they do arise they help to ensure that they are identified and reported on and that appropriate remedial action is taken where possible. The primary purpose of this report is to provide information on historic performance, however the material variances detailed in appendix 2 highlight that the financial management and budgetary control arrangements require continual review and enhancement if financial risk is to be effectively mitigated.
