- 3.4 The most significant issues and risks on the MIJB strategic risk profile during Quarter 2 are as follows:-

Issues

Use of Acute Hospital beds

Services to support people who have a long term condition to stay well at home continued to operate in order to support as many people as possible to avoid hospital visits. Additional reviews and redesign of Intermediate Care and Care at Home Services. The introduction of the Single Point of Access in December has had a positive impact on people delayed in hospital unnecessarily and this work continues.

Representatives of Midlothian Health and Social Care Partnership continue to participate in the RIE Hospital Management Team and the unscheduled care board, along with more specific forums such as the Redesign of the Front Door.

The Winter Plan is in place and has been presented at IJB Board. Substantial investment has been made in winter specific test of change projects to assist with the reduction of presentation and admission to acute. These will be reviewed and assessed for impact as winter progresses.

Care homes

All Midlothian care homes have been migrated on to the new regional NSS testing portal in line with guidance from Scottish Government. This continues weekly PCR tests along side twice weekly lateral flow testing. Care Homes continue to be monitored through Mid HSCP and NHSL Care Home Assurance Groups. Clinical and care support continues to be provided by Care Home Support Team to all Midlothian Care Homes.

COVID-19

Business continuity plans are in place to mitigate risks for local lockdowns/outbreaks. Resilience and Business Continuity plans are in place for both business as usual management and winter specific planning.

Further financial support has now been provided by the Scottish Government (for Covid) so the IJB is currently forecasting a break-even position in 21/21 albeit on the back of significant Covid Funding. The financial risk is now in 22/23 and will be considered as part of the 22/23 financial planning process (which is already underway).

Additional resources have been allocated to further reinforce the vaccination programme. Due to Lothian wide workforce limitations, this continues to be a challenge and is being managed nationally alongside Scottish Government. Midlothian HSCP is expanding the vaccination programme in line with Scottish Government guidance.

Risk

Balancing the budget in future years

The IJB has set a budget for 2021/22 and issued directions to its Partners. The 21/22 out-turn forecast is a break-even position for the IJB and this will be reported at the December IJB meeting. Work continues to develop the IJB's longer term financial plan with an IJB workshop Scheduled for January 2022.

Emerging Risk

Scottish Government consultation was published on 9th August 2021 on proposals to improve the way social care is delivered, entitled: National Care Service for Scotland: Consultation. Potential risks are yet to be assessed.
