### **3 Q2 Risk Management overview**

#### **3.1** Midlothian Council has delivered a wide range of services to the people of Midlothian throughout Quarter 2 2021/22 against a backdrop of operating within a series of government directed constraints and transition through Protection Levels, associated with responding to a global pandemic.

Despite indications in Quarter 1 of potential EU-Exit linked impacts on wider supply chains and logistics sector, there continues to be no negative experience or forecasted impact on Council operational service delivery.

Quarter 2 required the Council to maintain its ongoing control of risk associated with COVID 19 as the country transitioned through the Protection levels.

The Council continued to manage and review risks recorded within the Strategic Risk Profile. The work required to maintain the necessary Corporate oversight over the broader strategic landscape continues.

#### **3.2 UK Exit from EU**

Quarter 1 2021/22 saw forecasts of workforce and supply chain issues but they were not yet experienced locally by the Council. With the likelihood and impacts that these would have on Council operations increasing, the risk evaluation of EU Exit was increased from Low Risk in Q4 2020/21 to Medium Risk in Quarter 1 2021/22. The incidence of impacts have again not been experienced in Quarter 2, although with concurrent risks attributed to supply chain delays and material costs, the Medium Risk score remains at this time.

#### **3.3 Strategic Risk Profile update**

The on-going risk associated with financial stability and balancing the budget in future years remains, with the medium term financial plan demonstrating the Council's financial stability.

Spending within budget will continue to be closely monitored through the Business Transformation Steering Group with steps taken to realign spend where its identified as being off target.

The highest risks set out within the strategic risk profile at Quarter 2 are associated with the 'Early Years expansion', the 'Scottish abuse inquiry', with additional governance and controls in place for Asset Management resulting in a reduction in the likelihood score, with net effect of the evaluation reducing from High to Medium.

### **3.6.1 STRATEGIC ISSUE – RATED CRITICAL AND HIGH**

#### **3.6.1 COVID 19**

During Quarter 2, Midlothian transitioned through the Protection levels to level 0 in July and beyond level 0 in August. The risks associated with this transition were significant in terms of service delivery and on employees and service users. Despite a vaccination programme in place, the virus impact remains significant, together with the various variants and risks associated with the re-opening of sectors.

### **3.7 STRATEGIC RISKS – RATED CRITICAL/HIGH**

#### **3.7.1 Scottish child abuse inquiry**

The Council have an Abuse Inquiry Project Team and a Claims Project Team to support the Council to prepare for information requests to support the Inquiry and in preparation of any claims that may arise.

Legislation to create a scheme for survivors of historical child abuse in care in Scotland to apply for financial redress payments of up to £100,000, as well as access to apology and support, has been passed by the Scottish Parliament. The Redress for Survivors (Historical Child Abuse in Care) (Scotland) Bill. Survivors will be able to apply for a fixed rate redress payment of £10,000, or an individually assessed redress payment which will involve a more detailed examination of their experience. The individually assessed redress payment levels are set at £20,000, £40,000, £60,000, £80,000 or £100,000. Financial contributions are being sought by the Scottish Government from those involved in the care of the children at the time they were abused and COSLA has already offered to contribute £100 million to the scheme. All relevant actions with respect to the Claims Project have been completed and reduced the evaluation outcome of the risk in Quarter 1.

#### **3.7.2 Early Years Expansion (1140 Hours)**

Following the Scottish Government's decision to increase the number of free early learning and childcare hours to 1140, the Council has continued to plan with its partners. The two key strands to the successful implementation are the recruitment and training of staff and the physical increase in estate capacity. These challenges are being considered in the wider context of the plan, in which the capacity and expansion of all funded providers (council, private and voluntary settings as well as childminders) combine to deliver the requirements.

The funding distribution to apply this Government policy is subject to ongoing monitoring, with the Council seeking to influence the proposed funding distribution beyond 2021/22 to ensure deliverability of this policy. An Early Years report was reported to Council in June 2021 and included information on risks associated with proposed funding distribution. Cosla proposal shared on funding quantum for 2022/23 with LAs for comment in August 2021.

## **3.8 STRATEGIC OPPORTUNITIES**

### **3.8.1 City Deal**

South East Scotland Region City Deal - bid for funding to Scottish and UK Governments to accelerate economic growth through investment in infrastructure/ housing/ skills and innovation was agreed by Council in June 2018. Projects continue to be progressed with realisation of regional enhancements and connectivity.

### **3.8.2 Fastest Growing Council**

Midlothian Council has been identified in 2018 as not only the fastest growing Council in Scotland in recent years, but projections show it will remain so, possibly for a further ten years.

This brings the opportunity to support the Council vision of being 'A Great Place to Grow'. As a growing Council this brings the opportunity to redevelop parts of Midlothian, improve infrastructure with a focus on area targeting, improving economic opportunities, improving education and health outcome.

This growth creates the opportunity to meet the housing need with 25% of new homes being built in the affordable housing sector, in addition to the expansion in Council House building. This construction will directly support employment in construction and will see a steady increase in the volume of Council tax received over time.

### **3.8.3 Creating a World Class Education System**

The Centres of Excellence model is a core part of the Council's strategy to create a world-class education system in Midlothian. Funding has been approved by Scottish government to create a STEM centre of excellence as a replacement for Beeslack High school.

Research is being carried with the University of Edinburgh to establish the impact of new school buildings on educational attainment.

### **3.8.4 Shawfair**

The Shawfair development, with its new Rail link provides a major incentive for house builders, employers, retail and commercial interests including opportunities to secure a low carbon community through district heating from Zero Waste.

### **3.8.5 Easter Bush**

Fast growing opportunities in Science, Technology, Engineering and Mathematics (STEM) with opportunities to link with education. Partnership links to schools and university sector at the 'Bush' to promote STEM.

## **4 Report Implications (Resource, Digital, Risk and Equalities)**

### **4.1 Resource**

There are no direct resource implications indicated in this report, although, individual risks have associated resource implications.

### **4.2 Digital**

None.

### **4.3 Risk**

The risks reported in this report are understood with the Council able to demonstrate the current risk controls and actions being taken in response to these.

The report provides an overview of the significant risks faced by the Council during Quarter 2 2021/22 and should act to provide assurance that Midlothian Council took a proportionate and planned approach to prepare and respond to each of these risks.

### **4.4 Ensuring Equalities**

There are no direct equalities issues arising from this report.

### **4.5 Additional Report Implications (See Appendix A)**
