## **4 Report Implications**

### **4.1 Resource**

There are no financial and human resource implications associated with this report.

### **4.2 Risk**

Education Scotland visit a sample of primary and secondary schools every year to find out how they are performing. A report is published which informs parents about the key strengths of the school, its capacity for further improvement and sets out the main points for action.

Following the publication of that report further visits may be made to the school, either by Education Scotland or by the Education Authority to assist improvement and monitor progress. A follow-through report on the progress of the school is published by either Education Scotland or by the Education Authority, normally within 2 years of the date of publication of the original report

Monitoring, review and evaluation of progress by Education Officers in the Quality Improvement Team is the control measure in place to reduce the risk of failure of the school to demonstrate its capacity to improve.
