

### **Motion to Midlothian Council**

Council recognises the considerable community consultation which has been undertaken in Rosewell with a view to establishing a Community Hub. Council also welcomes the commitment to this project shown by the Crown Estate who have supported the transfer of land to the trust to facilitate the proposed community facility; understands that Rosewell Community Development Trust continue to seek additional sources of funding to complete the capital build of the project; and that Council agrees to underwrite this project in a manner similar to that undertaken in supporting a community hub for Woodburn in 2011 through match funding from developer contributions or the Council Capital Plan.

Accordingly it is requested that Council officers prepare a feasibility report for the Council to consider for a future Council meeting.

Proposed:

.....

Councillor Andrew Coventry

Seconded:

Councillor Catherine Johnstone
