### **3 Report Implications**

#### **3.1 Resource**

There are no resource implications arising from this report.

#### **3.2 Risk**

The Care Inspectorate regulate all care services in Scotland using the [National Care Standards](#), set out by the Scottish Government, as a benchmark for how each type of service should perform. These standards are the minimum that children and young people should expect when using care services.

If the standards are not being fully met, the Care Inspectorate would note this in the inspection report and require the service manager to address these. The Care Inspectorate could impose an additional condition on the service's registration if the provider persistently, substantially or seriously fails to meet the standards or breaches a regulation. They also have the power to issue an improvement notice detailing the required improvement to be made and the timescale for this.

Monitoring, review and evaluation of progress by officers in Children's Services is the control measure in place to reduce the risk of failure of the care services and to demonstrate their capacity to improve.
