

## Customer and Housing Services Performance Report Quarter One 2018/19

### Progress in delivery of strategic outcomes

#### Delivery of Strategic Outcomes

The primary objective is to work with our customers and partners to review and re-shape service delivery so that it is aligned to the priorities and outcomes of the Single Midlothian Plan and ensures that Midlothian Council resources are effectively utilised to provide essential services to communities with a partnership focus on those in greatest need. The aim is to set a clear direction and make demonstrable progress in transforming Midlothian Council from being solely a service provider to a tailored, more balanced and partnership approach to the delivery of services to communities.

The Customer Service Strategy defines the key drivers that will enable Midlothian Council to deliver 'customer service excellence' to our communities. It outlines the commitment to provide choice to the customer in the way services are accessed and provided. This includes innovation, partnership working and optimising the use of technology within resource constraints. The Strategy will help us to change the way we deliver services utilising the latest technologies and linking to national frameworks.

In adopting a Transformation approach, we have become more efficient and at the same time we have delivered changes resulting in improvements to the way we work, the services we deliver and the quality of life experienced by local people. These changes are evidenced in the delivery of new affordable homes and better outcomes across Customer and Housing Services.

**General Data Protection Regulations:** Customer and Housing Services were compliant by the introductory date of 25 May, in the approach to managing personal data in accordance with the requirements of the new regulations, with employee awareness and training achieved by 96% of staff.

**Housing:** The Local Housing Strategy is being revised, as it is submitted to the Scottish Government on a five year basis, and sets out the Council's housing plans for developing, improving and managing the housing stock over that period. The Local Housing Strategy includes a Needs & Demand analysis to ensure that mainstream provision and also particular needs including homeless, young people leaving care, older people and people with disabilities or support needs are met, as well as those of existing tenants and families.

#### Customer Services

Digital Customer progress in the Online Payments and Services (OPAS) project solution was approved and the procurement process is now governed by the Project Board and implementation by a Project Team with members spanning across relevant services. A risk is if the procurement exercise is not strongly governed and resourced then Midlothian may not get value for money or a solution that meets respective requirements and aspirations.

Digital transformation of frontline services remains a challenge in providing flexible and responsive ways of work across our services to be adaptive for digital public services that match online retailers. Midlothian Council is to procure components for an Online Payments and Services (OPAS) solution through an Official Journal of the European Union (OJEU) procurement competition for suppliers utilising a range of digital devices and platforms wherever possible to develop and promote digital by design for online customers.

#### Revenues

There has been a significant increase in 12 monthly direct debit payers increasing from 16,318 to 17,853 between April 2017 and June 2018. The equivalent increase for 10 monthly direct debit payers was 12,412 to 12,469 over the same period. This will result in higher income levels.

Our income from Water Direct and Council Tax deductions for the period April to June 2018 was £156,221 compared to £168,636 for the same period last year. We have been on Universal Credit (UC) Full Service since March 2017. The number of Council Tax Reduction claims with Universal Credit increased from 158 in April 2017 to 1251 in June 2018. The transition to UC results in the deductions from legacy benefits ending and the Council having to request a new deduction from UC. This is currently a manual process with individual applications to DWP. It is expected the DWP move of Midlothian UC processing to the Dundee Service Centre will establish closer working relationships to improve this process.

All our recovery runs for Council Tax Reminders, Final Notices and Summary Warrants have been issued based on the same timetable as previous years. Our income from our Sheriff Officer is slightly down on the same period last year, but the 2018/19 Summary Warrant was sent in June 2018 and we should see an increase in receipts as a result.

## Emerging Challenges and Risks

### Financial Strategy

Customer and Housing Services has delivered part of the 2018/19 service savings and efficiencies identified across the revenues and housing teams. Remaining savings in Customer Services are incorporated into the new Digital Customer theme with actions planned to meet the target balances across housing and revenues services

### Welfare Reform

The Universal Credit Programme closed gateways for legacy benefits, so existing benefits are no longer eligible for all new benefit claimants, except pension benefits. The migration of those remaining claimants on current benefit types continues until the digital rollout is complete for all of UK. The risk of income disruption to housing rent payments and Council Tax Reduction scheme is evident in the increased arrears, although this is currently within the bad debt provision anticipated.

### Digital Customer

The Online Payments and Services (OPAS) project solution was approved and the procurement process is now governed by the Project Board and implementation by a Project Team with members spanning across relevant services. A risk is if the procurement exercise is not strongly governed and resourced then Midlothian may not get value for money or a solution that meets respective requirements and aspirations.

### Homelessness

We have reduced B&B, and avoided out of area placements, by the reuse of former council properties to provide a more beneficial and supportive environment to homeless households. We will continue to reduce B&B through this approach and also in HRA Capital Plan provision for new build temporary accommodation. The Homeless Accommodation HMO project in the re-use of Jarnac Court will involve planned public consultation.

The Scottish Government established a Homelessness and Rough Sleeping Action Group (HARSAG) in 2017, which has made recommendations on ending rough sleeping and transforming the use of temporary accommodation through a Rapid Rehousing approach for homeless households, and also Housing First for people with complex needs.

The HARSAG recognises the fundamental role to be played by local authorities, housing providers, health and social care partnerships and the broad range of organisations that provide support. The HARSAG also recognises that in some localities the transition will not be straightforward and recommended a 5-year timescale for the transformation to rapid rehousing.

Rapid rehousing is about taking a housing led approach for rehousing people that have experienced homelessness, making sure they reach a settled housing option as quickly as possible rather than staying in temporary accommodation for too long. Transition to a rapid rehousing approach means that some local authorities and partners will have to redress the balance of housing and support options that are available, and how quickly they are accessed. Proposals for a Rapid Rehousing Transition Plan in Midlothian shall be included in the Housing Allocation Policy review scheduled this year and reported onto Council as a requirement by Scottish Government.

## Suggested changes to priorities in Service Plan

### 18/19:

1. Add new measure following Audit review of overpaid housing benefit debt reporting and to be included in the financial year performance.

Total value of HB overpayments identified during the quarter.  
Total value of HB overpayments recovered during the quarter.  
Total value of HB overpayments written off during the quarter.

2. Change in wording of BS.CHS.11 from " Total number of homeless households accommodated in Midlothian Temporary Accommodation" to " Number of homeless households accommodated in Midlothian Temporary Accommodation at quarter end (snapshot)"
