Customer Services 12/13 Performance Report

01. Progress in delivery of strategic outcomes

Q2 12/13:

1. Customer Service Strategy

Progress: This package of work includes seven sub-projects: customer care training; supporting service reviews; telephony upgrade and automation, wider telephony review across council; corporate complaints handing; customer satisfaction and channel shift.

MILO Customer Care training ongoing via online course and face to face training. Overall now 41% of staff trained in customer care. Telephony upgrade progressing well, with voice recognition now ready to go live for internal calls in the next few weeks (external in the next few months). Plans to meet compliance with new Complaints Handling procedures are prepared and being implemented.

Challenge ahead: Customer Services Business Transformation Project Board continues to monitor the progress of this project. Main challenges in forthcoming period include implementation of plans for complaint handling to meet with SPSO model guidance and ongoing delivery of customer care training, through a variety of methods. Key decisions affecting progress include resourcing for complaints handling and clarity around frontline service delivery, linked in with the wider office rationalisation and EWiM projects.

2. Maximising Revenues Collection

Progress: Collection levels on Council Tax sustained year on year despite ongoing economic position, but current projection unlikely to meet target. Some progress in raising awareness and ownership of

Accounts Receivable, although resourcing in this area is an issue corporately. Rent arrears remain slightly up on year end but down from same time last year, which is positive.

Challenge ahead: Revenue collection will continue to be a huge challenge throughout 2012/13 and beyond across all revenues streams, as a result of the ongoing economic position, compounding already difficult situations for many tenants and taxpayers.

New court procedures/requirements commenced in August and are adding to the workload for recovery of rent arrears. Impact also because of drive to keep tenants in their homes wherever possible, so generally eviction is last resort.

Pro-active work is ongoing in relation to accounts receivable through the cross divisional user group and better statistical reports to management team, however resourcing across divisions is a concern in this area. New contract being negotiated for non domestic rates administration and collection and improvements will be sought.

3. Welfare Reform

Progress: Ongoing participation as part of the cross divisional working group. Revenues customers affected by the next phase of changes have been identified and contacted. Targeted action and assistance ongoing for those suffering impact.

Challenge ahead: the Welfare Reform cross divisional working group, has set out a plan to address the changes brought about by the new legislation. Work is ongoing to identify groups impacted by the changes, to offer proactive advice, guidance and support as necessary. Targeted communication is underway, as well as input to the wider communication plans.

The new requirement for local authorities to administer Crisis Grants and Community Care Grants is a significant piece of new work. Planning for this is underway, but much of the detail is as yet unclear. Welfare Reform will continue to be a significant challenge across the Council.

4. Technology and information management Progress:

a. Information Management – Security & Information Management "I" Campaign and ongoing awareness activity continues.

b. Mobile & Flexible - new Vodafone secure remote access (VSRA) client to support wider roll-out of mobile and flexible working.

c. Wireless Project - main Council buildings now have wireless capability for mobile & flexible users, including additional separate wireless network for 3rd floor Mid House, to allow wider access for Elected Members.

d. EDRMS project – IT services provide a key role in the corporate document management project, which will be one of the key facilitators for EWiM.

e. ICT Strategic Review: the review of Corporate and Schools ICT

was carried out and recommendations were approved by Council.

Challenge ahead: Information Management continues to be a significant challenge. Work is ongoing through the action plans monitored by the Information Management Group and Divisional sub groups. A number of areas will be subject to audit by the Information Commissioner, with a view to giving us assurance of the controls we have in place.

The recommendations of the ICT Strategic Review will be progressed in the coming period.

02. Emerging Challenges

Q2 12/13:

No new emerging challenges have been identified at quarter 2.

Customer Services 12/13 PI Report

PI Code	Driority	PI	2011/12	Q2 2011/12	Q1 2012/13			Q2 2	012/13	Annual	Benchmark	In SOA
PICode	Priority	PI	Value	Value	Value	Value	Status	Short Trend	Note	Target 2012/13		
65E.1213.	02. We will put our customers first	% of ALL staff completed Customer Care training	2%	1%	20%	41%		1	Q2 12/13: Off Target. Training is being delivered in a number of ways, including online MILO, group/team briefing exercises and 1/2 day sessions. Progressing well, but slightly behind schedule. The total staff to be trained (by June 2013) is around 3500 and as at end of Q2 12/13, 1489 staff have undergone training (1070 MILO and 419 face to face).	90%	n/a internal measure	
S-02 5	02. We will put our customers first	% of calls abandoned	N/A	13%	11%	12%		₽	Q2 12/13: Off Target : The performance continue in line with the historic trend however some way short of our target and the industry best practice/benchmark. Results are varied across the different service areas depending on capacity, service demand and peak periods. Front end messaging is regularly used for Revenues and Benefits service when large	5%	industry standard 5%	

DI Codo	Driority	DI	2011/12	Q2 2011/12	Q1 2012/13			Q2 2	012/13	Annual	Denehmark	
PI Code	Priority	PI	Value	Value	Value	Value Status Short Trend			Note	Target 2012/13	Benchmark	In SOA
									volumes of correspondence are being sent, which inflates the abandoned calls figure, but is a positive move (i.e. the customer has received the necessary information and hangs up).			
CSE.1213. S-02.6	02. We will put our customers first	% of contact centre calls answered within 30 seconds	N/A	81%	N/A	34%		?	Q2 12/13: Off Target: Performance in this area continues to be poor, due to a number of factors although this varies widely across services (under 20% in revenues but over 70% in social work). Contact volumes continue to increase - 13% up year on year in the first six months of 2012/13, which compounded the difficulties for the service areas within the Contact Centre which were already inadequately resourced e.g. Revenues. In addition, high turnover of staff has added to this difficulty. Finally, evidence would suggest that rather than abandon the call, Midlothian customers choose to wait, often for long periods, to have their call answered. This keeps the "abandoned call" rate lower than we would anticipate but inflates this "within 30 seconds" statistic. Performance is monitored on a daily basis with a view to look for opportunities to improve.	80%	industry standard 80%
